Potential Linked Credit Plan

Year: 2025-26

District: Ahilyanagar

State: Maharashtra

National Bank for Agriculture and Rural
Development
Maharashtra Regional Office, Pune

VISION

Development Bank of the Nation for Fostering Rural Prosperity.

MISSION

Promote sustainable and equitable agriculture and rural development through participative financial and non- financial interventions, innovations, technology and institutional development for securing prosperity.

FOREWORD

NABARD, as an apex organization in the field of agriculture and rural development, aims at building an empowered and financially inclusive rural India. NABARD undertakes the preparation of the Potential Linked Credit Plan (PLP) annually which being a vital document for guidance, planning and finalising the District Credit Plan in the district under the Lead Bank Scheme of the Reserve Bank of India helps in defining the credit flow to the priority sectors.

The PLP provides a detailed scientific assessment of credit potential for various sectors in the district. It highlights the sector specific infrastructure gaps and critical interventions to be made by State Governments and FIs for harnessing potential available under priority sector. The document also covers new initiatives that can be covered through Cooperatives.

This year, NABARD has leveraged technology for preparing a digital PLP for efficient credit projections. This new generation document has standardised structure, coverage and data indices. It has almost done away with manual interventions, which is the founding block of a data driven environment. We believe that this Digital PLP will be a catalyst for empowering Rural India and serve the needs of all stakeholders in the rural eco-system.

I take this opportunity to extend my sincere gratitude to the District Collector, Lead District Officer (RBI), senior district level functionaries, Lead District Manager, Bankers, NGOs, Rural communities, and other stakeholders whose contribution and guidance were vital in preparation of this document. I also compliment the DDM, NABARD for the efforts made in bringing out this document.

I am confident that this document will help to direct credit flow to the underserved and uncovered areas under priority sectors for an inclusive and sustainable development of the district.

(Rashmi Darad)
Chief General Manager
17 October 2024

Ahilyanagar, PLP 2025-26

PLP Document prepared by :

Shri Vikram Pathare

District Development Manager,
NABARD, Ahilyanagar

PLP Document finalized by : Maharashtra Regional Office

The document has been prepared on the basis of information collected from publicly available sources and discussions with various stakeholders. While preparing the projections, every effort has been taken to estimate credit potential realistically. NABARD shall not be responsible for any material or other losses occurring to any individual/ organization owing to use of data or contents of this document.

Executive Summary

1. Introduction

The Potential Linked Credit Plan (PLP) is prepared by NABARD each year keeping in view the national priorities, policies of the Government of India and State Government, infrastructure and linkage support and physical potential available in various primary, secondary and tertiary sectors.

2. District characteristics

1	Location	Ahilyanagar district is situated in the western part of Maharashtra. It has 14 blocks with a total geographical area of 17,048 sq. km.
2	Type of soil	Soil in the district is mainly shallow red/grey soil, deep black soil, medium deep black soil.
3	Primary occupation	Agriculture is the primary occupation of people in Ahilyanagar district. Around 72.83% of the workers in the district were engaged in Agriculture and allied activities.
4	Land holding structure	As per the Agriculture Census Data 2015-2016, the area under Marginal Farmers (261083 Ha) is 20.08%, under Small Farmers (371127 Ha) 28.55% and under Other Farmers (667818 Ha) 51.37%.

3. Sectoral trends in credit flow

1	Achievement of ACP in the previous year	The performance under Annual Credit Plan (ACP) during the year 2023-24 was Rs. 29949.66 Crore. The achievement under priority sector was Rs.14694.58 Crore which was 85.36% of the target, while achievement under non- priority sector was Rs.15255.08 Crore which was 153.94% of the target.
---	---	--

2	CD Ratio	The CD ratio was 80.31% for the district during 2023-24.
3	Investment credit in agriculture	Under the crop loan the disbursement Rs. 6119.87 Cr. against the target of Rs. 8653.42 Cr. and disbursement of Rs.3213.83 was achieved against the target of Rs.Rs.3500.00 Cr with respect to agriculture term Loan.
4	Credit flow to MSMEs	Further, under MSME the disbursement was Rs. 4677.22 Cr.against the target of Rs. 3548.26 Cr.

4. Sector/Sub-sector wise PLP projections

1	Projection for the year	The potential for institutional credit under Priority Sector for the year 2025-26 has been assessed at Rs. 18179.04 Cr.in comparison to Rs. 16359.59 Cr. for the year 2024-25 indicating a rise of 11.12%.
2	Projection for agriculture and its components	The projections for crop production is Rs. 8796.27 Cr. towards the seasonal agricultural operations of the crops. For agricultural term loan the projections are at Rs. 2603.44 Cr. For agriculture infrastructure and ancilliary activities the projection is of Rs. 977.21 Cr.
3	Projection for MSMEs	For MSME the projections are at Rs. 4717.53 Cr. intended for financing micro, small and medium enterprises in manufacturing and service sectors alongwith the working capital required.
4	Projection for other purposes	Projections for other priority sector for the year 2025-26 have been assessed at Rs.1084.59 Cr.

5. Developmental Initiatives

1. Eleven watershed development projects are ongoing one in the district with TFO of Rs.1365.25 lakh in Ahilyanagar, Akole, Jamkhed and Parner blocks.
2. Besides a pilot project on natural farming – “JIVA” has been implemented through WOTR at Kumbharwadi, Sangamner block, Ahilyanagar with TFO of Rs.34.16 lakh. Upscaling of the project is under process.
3. Around 728 projects under RIDF have been sanctioned under RIDF in the district. Out of which 640 projects with RIDF loan of Rs. 649.08 Cr. Belong to closed tranches. While 88 projects with RIDF Loan of Rs.351.88 Cr, belong to ongoing tranches.

6. Thrust Areas

1. The areas which requires a thrust in the district for enhancing the credit flow during FY 2025-26 are collectivization of Agricultural produce, timely and adequate Crop Loan disbursement, Capital Formation and

Productivity growth in agriculture & allied sectors such as Animal Husbandry.

2. Financial Inclusion/ Literacy, Post–Harvest infrastructure, Food and Agro Processing, Skills and Marketing, Producers Organizations and innovative projects. Storage of agricultural produce and value addition needs to be strengthened to enhance farmers income.
3. For a balanced economic growth, an appropriate combination of the strategies linking credit disbursement to the potential present in various sectors of the district as envisaged in the Priority Sector Lending norms is required.
4. Credit flow needs to be intensified where in RIDF and watershed projects are getting completed.

7. Major Constraints and Suggested Action Points

1. The district has lot of potential for value addition and value chain integration projects on account of availability of raw material for niche products like dairy, sugar, horticulture crops etc.
2. Factors like occasional droughts and livelihood opportunities in some blocks, low ground water potential in 3 blocks viz. Rahata, Shrirampur and Sangamner have been adversely affecting the development in the district.

8. Some of the suggested actions are –

- a. Construction of rain water harvesting structures like rain water storage tanks, percolation tanks, farm ponds, check dams etc. by Irrigation Department for recharge of ground water.
- b. Soil testing, quality control laboratories and testing facilities for pesticide residues at one place may be set up at least at taluka level.
- c. The agriculture graduates may be motivated to take up such activities as self-employment ventures and bankers may support them through the ACABC subsidy scheme.
- d. Steps have to be undertaken for monitoring of animal health, regular vaccination, treatment of diseases, fodder quality, awareness creation of scientific dairy farming among farmers by the Animal Husbandry Dept.
- e. Working capital under KCC for Animal husbandry needs to be provided in

the district. Strengthening / modernize infrastructure in selected livestock markets to act as model centers for procuring livestock. RIDF assistance may be sought for to establish model livestock markets.

- f. Fisheries department / FFDA may identify the borrowers in the vicinity of back waters, reservoirs of major / medium irrigation projects and prepare fisheries proposals involving subsidies & bank loan and forward the same to banks for financing purpose.
- g. The godowns may be accredited for issue of NWRS and pledge financing by banks.
- h. Common Facility Centers may be established and job oriented training programmes for skill development may be conducted.

9. Way Forward

- a. The goal of enhancement in farmers' income level can be achieved through the increased productivity/ profitability that can be attained through a proper package of sustainable agricultural practices including efficient water management and farm mechanization, use of quality seeds/ seed replacement.
- b. Crop diversification from food grains to oilseeds, horticulture crops etc., balanced cultivation of agricultural & horticultural species, input cost reduction, reduction of post-harvest losses, prompt marketing of agricultural produce and supplementing farm income with allied activities.
- c. In order to achieve the overall credit potential assessed, as also to achieve the objective of doubling the farmers' income and capital formation in agriculture in the district, there is a need to have a coordinated approach by all the stakeholders viz., Banks, Government Departments, NGOs, etc.
- d. Since reporting under LBS system has undergone a change, there is a need for a coordinated approach by all the stakeholders along with strengthening the reporting system by banks under the LBS and for regular monitoring and review in BLBC and DLCC meetings.
- e. For a balanced economic growth, an appropriate combination of the strategies linking credit disbursement to the potential present in various sectors of the district as envisaged in the priority sector lending norms is required, and the same is worked out in the present PLP.

Methodology of Preparation of Potential Linked Credit Plans

1. Introduction

Potential Linked Credit Plan is a comprehensive documentation of potentials in the district for rural economic activities, both in physical and financial terms. It is also an assessment of the gaps in infrastructure support which need to be filled in to fully exploit the realizable potentials.

2. Objectives

The objectives of PLP are:

- to enable various organizations involved in the process of rural development in directing their efforts in a planned manner, in accordance with the potentials available for exploitation,
- to enable optimum utilization of scarce financial resources (specifically bank credit) by channeling the same into sectors with growth potential, and
- to assess the gaps in infrastructure support which need to be taken care of for exploiting the potentials and prioritise resource requirement for the purpose.

3. Methodology

NABARD took the initiative, in 1988-89, of preparing PLPs for agriculture and rural development. The broad strategy followed by NABARD for the formulation of PLPs envisages estimation of long-term potential (in terms of physical units) in each sector of agriculture and rural development with reference to natural and human resource endowments and a phased annual programme for development, keeping in view the relative national and state priorities. NABARD has been endeavoring to introduce refinements in the methodology of preparing PLPs and improving its contents so that the PLPs could be used as a reference document for Annual Credit Plans of banks. NABARD has been reviewing the methodology in estimation of potential through consultative process over the years. It adopts a detailed methodology for assessing the physical potential in major sectors of investment conducive to development of agriculture and rural areas.

The methodology consists of assessment of sector-wise/subsector-wise estimation of potential in consultation with technical officers of the Line Departments concerned at the district level, identification of infrastructure facilities required to support the exploitation of the potential, identification of infrastructure facilities available at present as well as planned and working out the gap in infrastructure, examination of the trends in sector-wise credit flow, various schemes of State/Central Govt., and estimation of block-wise physical and financial credit potential.

The indicative unit costs suggested by the State Level Unit Cost Committee are made use of while arriving at the financial outlays.

4. Methodology of estimation of credit potential

Sr. No.	Sector	Methodology
1	Crop loans	- Collection of data on Gross Cropped Area for a period of 10 years and data on land holdings;
		- Distribution of Gross Cropped Area between Small Farmers/ Marginal Farmers and Other farmers based on the total land occupied by small and marginal farmers on one hand and other farmers on the other;
		- Assumption to cover 100% of Small/ Marginal Farmers and 20-50% of Other Farmers;
		- Study the cropping pattern;
		- Estimation of credit potential taking into account Scale of Finance and also the KCC guidelines in vogue; and
		- Block-wise allocation of potential taking into account credit absorption capacity in each block, cropping pattern, etc.
2	Water Resources	- MI potential is the area that can be brought under irrigation by ground and surface water;
		- Collection of data on irrigation potential, area already brought under irrigation and balance potential available under groundwater and surface water for the district;
		- While fairly clear estimates are available for ground water and its present and future utilization, surface water estimates for individual districts are difficult to get;
		- Estimation of potential attempted block-wise based on categorization of blocks, type of rock formation, suitability of MI structures, projects planned by State Govt. etc.;
		- Preference of farmers for different MI structures like dug wells, bore wells, DCBW, etc. is taken into account; and
		- The potential for MI sector is defined in terms of numbers for DW, BW and TW, and in terms of area for lift irrigation, sprinkler and drip systems.
3	Farm Mechanisation	- The potential estimate for farm mechanization takes into account irrigated and unirrigated cropped area in the district, economic life of tractors, optimum use of tractors, per acre use of tractors, replacement of tractors per year, assessment of availability of draught animal power/power tiller by using conversion factors;

		- Calculation of requirement of number of tractors assuming one tractor per 30 acres and 45 acres of irrigated and unirrigated cropped area respectively; - Adjustment of tractor potential with land holdings; and - Based on the cropping pattern, topography etc. similar assessment is made for power tillers, combine Harvesters etc.
4	Plantation and Horticulture	- Estimation of additional area that could be brought under plantation crops based on trend analysis of land utilization pattern and cropping pattern of the district, area of cultivable waste land likely to be treated and brought under plantation crops; - Feasibility and possibility of shifting from food crops to plantation crops; - Estimation of replanting by taking into account approximate economic life of a few plantation crops; and - Estimation of potential for rejuvenation of existing plantations.
5	Animal Husbandry – Dairy	- Collection of data on number of milch animals as per the latest census; - Estimation of milch animals for the reference year by assuming 30% calving, 50:50 sex ratio, 40% calf mortality and 50% culling for buffaloes; 40% calving, 50:50 sex ratio, 20% calf mortality and 50% culling for CBCs; and 30% calving, 50:50 sex ratio, 20% calf mortality and 50% culling for Indigenous cows; and - 1/6th of the animals are assumed to be good quality animals and 60% of the good quality animals in milk and 60% of animals in milk are on 2nd and 3rd lactation. 50% of the number of animals so arrived are assumed to be animals available for bank finance.

5. Agency wise use

Utility

Continuous efforts are made to make PLPs user-friendly keeping in view the stakeholders' focus. The document is useful to various stakeholders in a variety of ways, as illustrated below:

1	Bankers	- Provides inputs/ information on potential vis-a-vis credit possible; - Potential High Value Projects/ Area Based schemes; and - Infrastructure support available which can form basis for business/ development plans.
---	---------	--

2	Government Agencies/ Departments	- Infrastructure required to support credit flow for tapping the exploitable potential;
---	----------------------------------	---

		- Other support required to increase credit flow; and
		- Identification of sectors for Government sponsored programmes.
3	Individual/ Business entities	- Private investment opportunities available in each sector;
		- Availability of commercial infrastructure; and
		- Information on various schemes of Govt. & Banks.

6. Limitations and constraints

Though concerted efforts are made to estimate the potentials realistically, non-availability of accurate granular data on credit flow – Sector and sub-sector-wise are noticed in the exercise of PLP preparation.

Chapter 1

Important Policies and Developments

1. Policy Initiatives – GoI (including Cooperatives) Cooperative Development

The Ministry of Cooperation GoI has taken 54 initiatives to strengthen and deepen the cooperative movement at the grassroots level. The ministry in coordination with state governments NABARD national level federations and other stakeholders is working on the following initiatives:

i. World's Largest Grain Storage Plan in Cooperative Sector (WLGSP)
Ministry of Cooperation (MoC) GoI is implementing Pilot Project for World's Largest Grain Storage Plan in Cooperative Sector. The Pilot Project entails setting up of grain storage infrastructure including warehouse and silos along with other agri-infrastructure including Procurement Centre Custom Hiring Center Primary Processing Center Grameen Haats etc.

ii. Centrally Sponsored Scheme for Computerization of Primary Agricultural Credit Societies (PACS)
Government has approved a scheme for Computerization of Primary Agricultural Credit Societies (PACS) with the objective of increasing efficiency of PACS bringing transparency and accountability in their operations; facilitating PACS to diversify their business and undertake multiple activities/ services. A total of 63000 PACS have been taken for computerization under the project.

iii. Establishing Multi-purpose PACS/ Dairy/ Fisheries cooperatives in every panchayat with support of NABARD NDDB NFDB NCDC and other National level Federations.

iv. PACS as Common Service Centers (CSCs) for better access to e-services.
Ministry of Cooperation has announced supporting more than 300 e-services through PACS in association with MeitY NABARD and CSC e-Governance Services India Limited.

v. Micro-ATMs to Bank Mitra Cooperative Societies for providing doorstep financial services

vi. Computerization of Agriculture and Rural Development Banks (ARDBs)

To strengthen the long-term cooperative credit structure the project of computerization of 1851 units of Agriculture and Rural Development Banks (ARDBs) spread across 13 States/ Union Territories has been approved by the Government. NABARD is the implementing agency for the project and will develop a national level software for ARDBs.

vii. Co-operative Education – Setting up of World's Largest Cooperative University

This aims at introduction of cooperative education in independent degree / diploma courses in Schools and Universities.

viii. World's Largest Cooperative Training Scheme

This aims at revamping existing cooperative training structure in the country.

ix. New Cooperative Policy with a view to strengthen the cooperatives and make them vibrant with increased contribution to the economy

x. Amendment to Multi State Cooperative Act 2002 and setting up of 3 new Multi State Cooperative Society (MSCS) in the areas of seed production and marketing; organic products and export from cooperative sector.

xi. To provide facilities at par with FPOs for existing PACS

xii. Establishment of National Cooperative Database Digital

Agriculture Mission:

The Digital Agriculture Mission (DAM) aims to revolutionize India's agriculture sector by leveraging digital technology inspired by the success of India's digital revolution in other sectors. With a substantial financial outlay of 2817 crore, it focuses on creating a Digital Public Infrastructure (DPI) for agriculture.

i. Agri Stack:

Key components of the mission include the Agri Stack—a farmer-centric DPI to streamline services with the creation of a unique digital Farmer ID linked to important farmer data such as land records and crop details.

ii. Vistaar (Virtually Integrated System to Access Agricultural Resources):

Vistaar initiative of MoA&FW is an open interoperable and federated network dedicated to agricultural information and advisory services with a mission to empower farmers and enhance their farming practices for better sustainable livelihood.

iii. JanSamarth Portal:

JanSamarth Portal a GoI initiative is a unique digital portal linking credit linked schemes for ease of access to the all the beneficiaries and related stakeholders. Schemes such as e-Kisan Upaj Nidhi KCC AIF etc. are accessible through the portal.

Agriculture Infrastructure Fund (AIF) Scheme

The Agricultural Infrastructure Fund (AIF) has played a pivotal role in transforming India's agricultural landscape. In addition to existing activities the purview of AIF scheme has now been extended to the following:

i. Viable Farming Assets: The scheme now includes the creation of infrastructure for viable projects for building community farming assets.

ii. Integrated Processing Projects: The list of eligible activities under AIF now includes integrated primary and secondary processing projects.

iii. PM KUSUM Component: The aim is to promote sustainable clean energy solutions alongside agricultural infrastructure development.

iv. Enhanced Credit Guarantee Coverage: The government proposes to extend AIF credit guarantee coverage for FPOs through the NABSanrakshan Trustee Company Pvt. Ltd.

Dairy Processing & Infrastructure Development Fund (DIDF)/ Animal Husbandry Infrastructure Development Fund (AHIDF): Government has approved merger of DIDF with AHIDF and extension of AHIDF for another three years till 31 March 2026. Further NABARD is included as loaning entity under the revamped AHIDF scheme.

Fisheries & Aquaculture Infrastructure Development Fund (FIDF): GoI has extended the scheme for a period of another 3 years from 01.04.2023 to 31.03.2026.

Framework for Voluntary Carbon Market (VCM) in Agriculture Sector: The Ministry of Agriculture and Farmers Welfare GoI has launched a Framework for Voluntary Carbon Market in Agriculture Sector. Under the Framework the Ministry envisages creating long-term carbon credit benefits primarily for small and marginal farmers by developing a VCM Framework and setting guidelines. NABARD is the nodal agency to coordinate and implement the various pilot projects under the VCM.

PM JANMAN (Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan): PM JANMAN is a recently launched initiative by the Government of India specifically designed to address the socio-economic challenges faced by the Particularly Vulnerable Tribal Groups (PVTGs) across the country. The program aims for the comprehensive development of 75 PVTGs in 18 states and 1 Union Territory with an allocation of 24104 crore.

2. Union Budget

2.1. Important Announcements

- i. Digital Public Infrastructure for Agriculture: Issuance of Jan Samarth based Kisan Credit Cards.
- ii. Release of new varieties: 109 varieties of 32 high-yielding and climate - friendly crops will be released for cultivation by farmers.
- iii. Natural Farming: To increase productivity as well as reduce input costs one crore farmers will be linked to natural farming in the next two years. Further 10000 need-based bio-input resource centres will be established.
- iv. Vegetable production & supply chain: To bolster vegetable supply chains the budget proposes the creation of large-scale production clusters near major consumption centres by promoting Farmer-Producer Organizations (FPOs) cooperatives and start-ups for vegetable supply chains including for collection storage and marketing.
- v. Budget focusses on development of Digital Public Infrastructure (DPI) a digital crop survey for Kharif crops will be conducted in 400 districts
- vi. A network of nucleus breeding centres for shrimp broodstocks will be established with funding for shrimp farming and exports facilitated through NABARD.
- vii. Pradhan Mantri Janjati Unnat Gram Abhiyan will be launched to improve the socio-economic condition of tribal communities.
- viii. Mudra Loans: The limit enhanced to 20 lakh from the current 10 lakh under the Tarun category.
- ix. Credit Guarantee Scheme for MSMEs in the Manufacturing Sector will be introduced for facilitating term loans for purchase of machinery and equipment without collateral or third-party guarantee.
- x. Development of Twelve industrial parks under the National Industrial

Corridor Development Programme.

- xi. Phase IV of PMGSY will be launched to provide all weather connectivity to 25000 rural habitations.
- xii. Assistance for flood management and related projects in Assam Bihar Sikkim & Uttarakhand. Assistance for reconstruction and rehabilitation in Himachal Pradesh.
- xiii. Taxonomy for Climate Finance: Government will develop a taxonomy for climate finance for enhancing the availability of capital for climate adaptation and mitigation related investments.
- xiv. Skilling the workforce to create employment opportunities: For raising participation of women in the workforce the budget aims to organize women-specific skilling programmes and promotion of market access for women SHG enterprises. 1000 Industrial Training Institutes are likely to be upgraded for this purpose.
- xv. MSME Units for Food Irradiation Quality & Safety Testing: Financial support for setting up of 50 multi-product food irradiation units in the MSME sector will be provided. Setting up of 100 food quality and safety testing labs with NABL accreditation will be facilitated.
- xvi. Water Supply and Sanitation: In partnership with the State Governments and Multilateral Development Banks Government will promote water supply sewage treatment and solid waste management projects and services for 100 large cities through bankable projects. These projects will also envisage use of treated water for irrigation and filling up of tanks in nearby areas.

2.2. Highlights related Agriculture & Farm Sector

Priorities identified for Agricultural Sector

- i. Transforming Agricultural Research
- ii. Release of New Varieties
- iii. Natural Farming
- iv. Mission for Pulses and Oilseeds
- v. Vegetable Production and Supply Chains
- vi. Digital Public Infrastructure (DPI) for Agriculture
- vii. Shrimp Production and Export.

Focus Areas

- i. Productivity and resilience in Agriculture
- ii. Employment & Skilling
- iii. Inclusive Human Resource Development and Social Justice
- iv. Manufacturing & Services
- v. Urban Development
- vi. Energy Security
- vii. Infrastructure
- viii. Innovation Research & Development and
- ix. Next Generation Reforms

3. Policy Initiatives - RBI

- i. Master Circular on Lead Bank Scheme SHG- Bank Linkage Programme and Deendayal Antyodaya Yojana - National Rural Livelihoods Mission (DAY-NRLM) SHG - Bank Linkage consolidating the relevant guidelines/ instructions issued by Reserve Bank of India.
- ii. RBIs Green Deposit Framework - The Green Deposit Framework by RBI is designed to encourage regulated entities (REs) in India such as scheduled

commercial banks and deposit-taking non-banking financial companies to offer green deposits. These deposits are earmarked for financing projects that contribute to environmental sustainability such as renewable energy efficiency and pollution control. REs must develop and publicly disclose a comprehensive policy and financing framework detailing how funds will be allocated and managed.

iii. Unified Lending Interface (ULI): The Reserve Bank of India (RBI) as part of its strategy to create digital public infrastructure in the country has announced re-engineering of setting up of a new technology platform called the Unified Lending Interface (ULI) which will enable friction-less credit to farmers and MSME borrowers to begin with. The eKCC Portal developed by NABARD has already been integrated with the ULI for fetching and validation of land records to facilitate dispensation of crop loans to farmer members of cooperatives.

4. Policy Initiatives - NABARD

1. Refinance support:

NABARD provides Short Term refinance to Cooperatives RRBs and SFBs for their crop loan lending. To ensure increased and uninterrupted credit flow to farmers as also to give a boost to capital formation in agriculture sector NABARD provides refinance to the Commercial banks cooperative banks and RRBs.

2. Schematic Refinance for Water Sanitation and Hygiene (WASH): To provide clean water sanitation and hygienic conditions to rural and semi urban areas and thereby to protect human health during outbreak of infectious disease NABARD introduced a special refinance scheme on Water Sanitation and Hygiene (WASH).

3. Special Refinance Scheme (SRS) on PACS as MSCs:

NABARD introduced Special Refinance Scheme to saturate all the potential PACS for conversion as Multi Service Centres over a period of three years commencing from the year 2020-21.

4. Credit-linked subsidy schemes of GoI

4.i. New Agriculture Marketing Infrastructure sub scheme of Integrated Scheme for Agricultural Marketing (ISAM): GoI had approved the continuation of the scheme till 31 March 2026. The scheme lays special focus on developing and upgrading of Gramin Haats as GrAMs through strengthening of infrastructure.

4.ii. Agri Clinics and Agri Business Centres (ACABC): The Central Sector Scheme of Agri-Clinics and Agri-Business Centres was launched in April 2002 by Ministry of Agriculture GoI. Composite subsidy of 44% of the project cost for women SC/ST & all categories of candidates from Northeast and Hill states and 36% of project cost for all other beneficiaries is provided under the scheme.

5. Interest Subvention Schemes of GoI

5.i. NABARD implements crop loan interest subvention scheme of GoI for Cooperative Banks and RRBs under which interest subvention of 1.5% is provided to banks for extending crop loans up to 3 lakh at a concessional interest rate of 7% per annum. The scheme also provides an incentive of 3% subvention to the farmers making prompt repayment of loans thereby making credit

available at an effective interest of 4% per annum.

5.ii. NRLM Interest Subvention: NABARD also implements interest subvention scheme under DAY-NRLM for Cooperative Banks and RRBs. NABARD has developed a web portal for NRLM Interest Subvention claims by RRBs and Cooperative Banks in respect of WSHGs financed by them under DAY-NRLM.

5.iii. GoI introduced Sugar Ethanol Interest Subvention scheme in 2018-19 with a view to increase the production of ethanol and its supply under the Ethanol Blended Petrol (EBP). NABARD is the nodal agency responsible for managing the Sugar Ethanol Interest Subvention Scheme of the Department of Food and Public Distribution (DFPD) Government of India. NABARD has launched a sugar ethanol portal to speed up the claims settlement process.

6. Rural Infrastructure Development Fund (RIDF):

6.i. RIDF instituted in NABARD during 1995-96 with the main objective of providing loans to State Governments for completing ongoing rural infrastructure projects at present covers as many as 39 activities classified under three broad sectors viz. (i) Agriculture and Related sector (ii) Social Sector and (iii) Rural Connectivity.

7. Micro Credit Intervention:

NABARD has been extending grant support to partner agencies for promotion and nurturing of SHGs training and capacity building of SHG members and other stake holders besides initiating special programmes for backward regions. A few recent initiatives taken under micro credit are as under:

7.a. Scheme for grant support to SHGs/ JLGs/ POs/ Microentrepreneurs for training on onboarding onto E-Commerce platforms/ ONDC/ social media platform

7.b. Scheme for Grant Support to SHGs/ JLGs/ POs for Physical Marketing of Products.

7.c. NABARD in 2023-24 announced guidelines for a pilot project to be taken up by Regional Offices titled m-Suwidha (Microenterprises through Skill Upgradation for Women) to support need based and location specific developmental projects by strategizing end-to-end interventions.

7.d. Pilot Project: Real-time banking solution for SHGs (Money Purse Application)

7.e. Pilot Project – Graduated Rural Income generation Project (GRIP): A pilot project to build capacities and enable asset generation by ultra-poor rural women and graduating them to access formal financial services through the innovative concept of returnable grant was sanctioned during 2023-24.

7.f. MoU with NRLM MoRD: Marking a strategic alliance to benefit rural women SHGs NABARD and the National Rural Livelihood Mission (DAY-NRLM) under the Ministry of Rural Development GoI inked a landmark MoU on 27 February 2024.

8. Financial Inclusion

Major Policy interventions and launching of new Schemes under the fund during 2023-24 includes:

8.a. Support for the Deployment of micro-ATMs to two District Central Co-Operative Banks in Gujarat with a grant support of 3.67 crore for deploying 1631 micro ATM devices at PACS (440) and cooperative milk societies (1191).

- 8.b. Financial Inclusion under Special Campaign 3.0: RRBs under guidance of NABARD conducted Special Financial Literacy Camps during October 2023.
- 8.c. Support under Financial Inclusion Fund (FIF) for Rural Connectivity-HTS-VSAT Dual LTE and SD WAN technologies:
- 8.d. Incentive Scheme for BCs operating in NE States and hilly states.

9. Farm Sector Development

- 9.a. Participatory Sustainable Groundwater Management in Overexploited Blocks/Watersheds:

A pilot project titled "Participatory Sustainable Groundwater Management in Overexploited Blocks/Watersheds" has been launched in five states: Punjab Haryana Rajasthan Uttar Pradesh and Tamil Nadu. This innovative pilot initiative by NABARD is the first of its kind aimed at demand side management of water at the micro-watershed/village level.

- 9.b. Expansion of JIVA:

Based on the success of the pilot phase JIVA is being expanded to 25 new projects in central eastern and north-eastern states to further widen and deepen the programme focusing on completed or near-completion watershed/spring shed and tribal development projects with thrust on districts identified under aspirational / low priority sector lending districts.

- 9.c. Accelerator approach for growth of FPOs:

NABARD has come up with FPO accelerator programme which is a structured framework to empower FPOs by providing access to specialized training mentorship and resources envisaging the enhancement in FPO's operational efficiency adopt modern agricultural techniques and navigate market complexities

- 9.d. Saturation Drive campaign:

Government has launched the saturation drive to provide FPOs benefits of schemes of Agriculture department in the form of licenses of inputs seeds fertilizer etc. FPOs will also be linked to mandis facilitated with registrations under GST FSSAI and onboarding on platforms like ONDC and other E-retailing platforms for sale of their produce.

- 9.e. National FPO Policy:

MoA&FW GoI is working on finalization of a National Policy on FPOs to create a supportive environment for the FPOs after ongoing deliberations and consultative meetings on the draft policy.

10. Climate Action and Sustainability:

NABARD is a Direct Access Entity (DAE) to the Green Climate Fund (GCF) and the National Implementing Entity (NIE) to Adaptation Fund (AF) and National Adaptation Fund for Climate Change (NAFCC).

11. Off Farm Sector Development

- 11.i. Capacity Building Fund Social Stock Exchange (CBF-SSE): The Capacity Building Fund of Social Stock Exchange (CBF-SSE) was set up in NABARD with funding to be contributed by NABARD SIDBI BSE NSE and Other CBF is being used to improve the ability of all stakeholders to navigate through the operational dynamics of SSE understand the nuances processes instruments etc.

- 11.ii. Gram Vihar New Scheme for promotion of Rural Tourism: A

new scheme in the name of "Gram Vihar" has been introduced to give a fillip to the rural tourism sector in the country by promoting "homestay" wherein tourists stay with the local families and experience rural lifestyle as well as "away-day" i.e. one day trip without night stay.

12. Agriculture Credit during 2023-24:

Disbursement of agriculture credit during 2023-24 was 25.10 lakh crore as against target of 20.00 lakh crore indicating achievement of 125%. Commercial Banks RRBs and Co-operatives accounted for 75% 13% and 12% of the total disbursement respectively.

13. Technology Facilitation Fund (TFF):

NABARD has set up a Technology Facilitation Fund (TFF) with a corpus of 50 crore. The fund is focused on providing support to tech start-ups working in agriculture and rural development sector. The fund provides a range of flexible support mechanisms including grants loans equity and convertible grants designed around the needs of each start-up

5. Govt Sponsored Programmes linked with Bank Credit

1. Policy Initiatives – State Govt. (including Cooperatives)

Project on Climate Resilient Agriculture (PoCRA) - The basic idea behind the project is to equip farmers to face the vagaries of nature. This project is initiated to protect the farming from drought in selected districts of Vidarbha & Marathwada through World Bank (WB) assistance in six years period with 70:30 share of WB and GoM. The State Government has decided to implement second phase of Nanaji Deshmukh Agricultural Sanjeevani Project (PoCRA 2.0) in the five districts viz. Nagpur, Bhandara, Gondia, Chandrapur & Gadchiroli in addition to the 16 districts (Chh. Sambhajinagar, Beed, Jalna, Parbhani, Dharashiv, Latur, Nanded, Hingoli, Amravati, Akola, Washim, Yavatmal, Buldhana, Wardha, Jalgaon & Nasik) included in the phase I (2018 to 2024), with cost of around Rs. 6000 Cr for all 21 districts.

SMART Cotton Project - The SMART Cotton project is a part of the State of Maharashtra's Agribusiness Rural Transformation (SMART) Project and aims at producing consistent, uniform and clean cotton by better farm management and crop monitoring. There is specific focus on CBO-based production, controlling deterioration of cotton quality in the post-harvest stage and lint-based marketing with traceability and branding.

Jalyukta Shivar Yojana 2.0 - With a view to make Maharashtra a drought-free state, the State Government launched an ambitious project viz, "Jalyukt Shivar Abhiyaan". The project involves deepening and widening of streams, construction of cement and earthen stop dams, work on nullahs and digging of farm ponds. Jalyukta Shivar Abhiyan 2.0 is being implemented in the State from January 2023. The 2.0 version will cater to around 5,000 villages in the first phase of Jalyukt Shivar 2.0. To carry out soil and water conservation works in the villages where the

first phase of Jalyukt Shivar Abhiyan as well as other watershed development programmes were not implemented and are eligible as per the village selection criteria.

State of Maharashtra's Agribusiness and Rural Transformation (SMART) Project - World Bank assisted State of Maharashtra's Agribusiness and Rural Transformation (SMART) Project aims to revamp agricultural value chains, with special focus on marginal farmers across 1000 villages. The objective of the project is to create and support value chains in post-harvest segments of agriculture, facilitate agribusiness investment and stimulate SMEs within the value chain.

Maharashtra Agribusiness Network project (MagNet) - The state government has collaborated with the Asian Development Bank (ADB) for Maharashtra Agribusiness Network (MagNet) project. The proposed project will support development of cost and resource-efficient horticultural agribusiness that will help increase farm income of 200,000 farmers and minimize food loss. The project anticipates to (i) connect to multiple modern and efficient agribusiness value chains via FPOs; (ii) connect to improved horticultural harvest and post-harvest system for distribution of high quality produce and food loss reduction, supported by the adoption of best practices and technologies as well as improved facilities and infrastructure; and (iii) provide credit and financial services, market information, relevant knowledge and technology, risk management tools and other essential agribusiness services.

Onion Mahabank programme – The Maharashtra government will soon set up onion storage banks and use nuclear technology for irradiation to extend the freshness and shelf life of the crop. The project will start from Rahuri in Ahilyanagar, while facilities will come up immediately in Nashik, Chhatrapati Sambhajnagar and Solapur, where onion production is high, in a bid to prevent the wastage of onions. This will allow farmers to wait till they get good prices for the crop. [Source: The Print, 25 July 2024.

Waiver of Stamp Duty for crop loan up to Rupees 1.6 Lakh - GoM has waived off the stamp duty chargeable under the Maharashtra Stamp Act on the instrument of Acknowledgement, Cash Credit Agreement, Deposit of Title Deeds, Pawn, Pledge and Hypothecation, Letter of Guarantee, Mortgage Deed, Guarantee of Debt, Notice of Intimation, Declaration or any other instrument executed by an agriculturist relating to agricultural or crop loan up to Rupees 1,60,000 for the period commencing on 15th March 2024 till further order.

Maharashtra export policy: The objective of the policy is to create employment opportunities by attracting the foreign direct investment. The policy, to be implemented from the current financial year till 2027-'28, would facilitate investment of Rs 25,000 crore in the state. The

policy aims at increasing exports of the state from 72 billion dollars to 150 billion dollars, to develop 30 export-oriented infrastructure development projects in the state in the next five years and to achieve 22 per cent participation of the state in the target of one-trillion-dollar exports by 2030. Around 5,000 MSMEs and large industrial units in the state will benefit from the incentives given through the policy. It will also help increase the state's exports to 14 per cent from the current 7 per cent by creating 40,000 employment opportunities. As per the policy, the state government will provide financial support to the export-oriented specific projects within the limit of Rs 50 crore of the approved project cost for infrastructure works and export oriented industrial parks within the limit of Rs 100 crore.

Maharashtra logistics policy 2024: The policy aims to reduce costs in logistics through comprehensive logistics master plan keeping a development view of next 10 years and to promote the logistics sector in alignment of National Logistics policy. It will play a key role in obtaining state's goal of becoming US \$1 trillion by 2028. The policy has earmarked following targets during policy period: to develop more than 10,000 acres of dedicated logistic infrastructure across the state by 2029, to develop 1 International logistics Mega Hub, 1 National Logistics Mega Hub, 5 State Logistics Hub, 5 Regional Logistics Hub and 25 District Logistics Nodes, to ensure cost of logistics to be reduced further by minimum 4-5 % as compared to existing 14-15 % to reduce the time taken for logistics through provision of Integrated Logistics Master Plan, Efficient multimodal logistics, Technology interventions like AI, Blockchain technology and to reduce carbon footprints by promoting green initiatives in logistics sector.

Maharashtra tourism policy 2024: The policy aims to attract 1,00,000 crore in investment and generate 1.8 million jobs over the next decade. The policy identifies key areas to boost the contribution of tourism to Maharashtra's goal of becoming a \$1 trillion economy by 2028. It focuses on developing robust infrastructure and partnering with various stakeholders, including tour operators and MICE (meetings, incentives, conference, exhibition) organizers, to double revenue generation in their respective sectors. The policy categorizes tourism projects into A, B, and C tiers based on size, offering incentives such as GST waivers, electricity rate concessions, and stamp duty reductions. Rural development is a key focus, with plans to promote local culture, art, cuisine, and festivals. Tourism has been identified as a crucial sector to drive the states GDP growth from 9% to 14%, aligning with the \$1 trillion economy target. The policy offers substantial incentives for various tourism-related projects.

The "Mukhyamantri - Majhi Ladki Bahin Yojana: The scheme aims to give economic freedom to women in the state, improving their health and nutrition and strengthening their decisive role in the family. The scheme is available to women aged 21 to 65, including married, widowed, divorced, abandoned, and destitute women with annual family income

of less than 2,50,000/-. The scheme will provide a financial benefit of 1,500/- per month through direct benefit transfer (DBT).

State Government Sponsored Programmes:

Dr. Babasaheb Ambedkar Krishi Swavalamban Yojana – Grants to Scheduled Caste / Neo-Buddhist Farmers for creation of sustainable irrigation facilities (all districts except Mumbai) : New well - Rs. 250,000 /-, Repair of old well - Rs. 50,000 /-, Inwell Boring - Rs. 20,000 /-, Pump set (Diesel / Electricity) - Rs. 20,000 /-, Power connection size - Rs. 10,000 /-, Plastic Lining of Farm - Rs. 100000 /-, Micro Irrigation Set - Drip Irrigation Set Rs. 50,000 /-, Sprinkler Irrigation Set - Rs. 25,000/- are provided under the scheme.

Birsa Munda Krishi Kranti Yojana – Under the scheme, Grants to Scheduled Tribes Farmers for creation of sustainable irrigation facilities (in all the districts of the state except Mumbai , Ratnagiri , Sindhudurg , Sangli, Satara and Kolhapur) are provided as follows : New well - Rs. 250,000 /-, Repair of old well - Rs. 50,000 /-, Inwell Boring - Rs. 20,000 /-, Pump set (Diesel/ Electricity) - Rs. 20,000 /-, Power connection size - Rs. 10,000 /-, Plastic Lining of Farm - Rs. 100000 /-, Micro Irrigation Set - Drip Irrigation Set Rs. 50,000 /-, Sprinkler Irrigation Set - Rs. 25,000 /-, Parasbagh - Rs. 500 /-, PVC Pipe / HDPE Pipe - Rs. 30,000 /-

Bhausahab Fundkar Orchard Planting Scheme – The scheme provides 100 percent grant (over a period of three years), 50 % in first year, 30% in second year and 20% in third year for the plantation of 16 perennial horticulture grafts and seedlings to individual farmer beneficiary.

Horticulture mechanization – Incentive for financing machinery to farmers belonging to SC, ST, women, SF & MF. – The scheme provides incentive for Agricultural mechanization to farmers (SC, ST, women, small and marginal farmers, others) which saves on production cost of horticultural crops, improves crop productivity and quality. Financing for machinery like tractor up to 50HP, Crop protection equipment like manual sprayer, power sprayer, new /imported machinery.

Dr. Punjabrao Deshmukh Organic Farming Mission - The main objective of the scheme is promotion of organic agriculture and establishment of farmers groups in organic farming.

Incentive to farmers making prompt repayment under MJPSKY (Mahatma Jyotirao Phule Shetkari Karj Mukti Yojana) – Under the scheme, incentive up to Rs. 50,000 will be provided for prompt repaying farmers. GoM has approved the scheme and has communicated the SoP vide its letter dated 18 August 2022. Farmers who have taken crop loan and paid it back regularly in any two of the three financial years viz 2017-18, 2018-19 & 2019-20 are approved for the benefit of this scheme.

CM Sustainable Irrigation Schemes- Drip & Sprinkler - Under the Chief Minister Sustainable Agriculture Irrigation Scheme, 25% top up subsidy will be given to small and marginal farmers and 30% to other farmers apart from the permissible subsidy under Pradhan Mantri Krishi

Sinchan Yojana-per drop more crop- 55% for Small/Marginal Farmers (SF/MF) & 45% for Other Farmers.

Namo Shetkari Maha Samman Nidhi Yojana - To further assist the farmers on the pattern of the Pradhan Mantri Kisan Samman Nidhi (PMKISAN), Government of Maharashtra launched Namu Shetkari Maha Samman Nidhi Yojana, effective from FY 2023-24 on the lines of PM KISAN Yojana 2023. Under this scheme, Government of Maharashtra will provide Rs. 6,000/- per year in three equal instalments of Rs. 2000 each to the farmers of Maharashtra in addition to the amount of Rs. 6000 provided to the farmers under PM KISAN Yojana.

2. State Budget

2.1. Important Announcements

Mukhyamantri Majhi Ladki Bahin Yojana"- Rs. 1500 per month to eligible women between 21 to 60 years of age through Govt - 46,000 crores of funds every year.

Pink E-Rickshaw - 10,000 women in 17 cities financed to buy rickshaws - Rs 80 crore fund.

So far 15 lakh women "Lakhpati Didi" through "UMED Mart" and "E-Commerce Online Platform" of goods manufactured by women self-help groups,- aim to make 25 lakh women Lakhpati this year.

"Aai Yojana" - Creation of 10000 jobs - Repayment of interest on loans up to Rs.15 lakhs to small women entrepreneurs in the tourism sector. Funds for women SHGs raised from Rs. 25000/- to Rs. 30000/-.

Punyashlok Ahilaya Devi Startup Scheme for small women entrepreneurship.

2.2. Highlights related Agriculture & Farm Sector

From July 2022 assistance of Rs. 15,245.76 crores- for loss of crops due to natural calamities.

Assistance of Rs. 2,253 crores to 24.47 lakh farmers affected by unseasonal rains during November-December 2023.

Limitation of damage area to three hectares instead of two – aid given at a higher rate than the State Disaster Response Fund criteria.

Quick and transparent E-Panchnama system will be implemented in the entire State.

Namo Shetkari Mahasanman Nidhi Yojana -Rs. 5,318.47crores subsidy given to 92.43 lakh farmer families.

"Mahatma Jyotirao Phule Shetkari Karj Mukti Yojana" 14.33 farmers who regularly repaid their crop loans have been paid Rs 5,190 crores as incentive amount, the rest of the amount will be distributed expeditiously.

Second phase of Nanaji Deshmukh Agricultural Sanjeevani Project worth Rs 6000 crore will be implemented in 21 districts.

Balasaheb Thackeray Agribusiness and Rural Transformation Project
- Approval of 767 sub-projects worth Rs. 1,561.64 crore - benefiting about 9 lakh farmers.

Rastriya Krishi Vikas Yojana and the State Agricultural Mechanization Scheme – Rs. 1,239 crores subsidy given for the purchase of 2.14 lakh agricultural implements in the last three years.

A new scheme “Gaon tethe Godam” - In the first phase- construction of 100 new godowns and repair of existing godowns will be undertaken.

A special action plan -to increase productivity and value chain development of cotton, soybean and other oilseeds. A provision of Rs. 341 crores for the year 2024-25.

A revolving fund of Rs. 100 crores - for the purchase of pulses and oilseeds, through NAFED, at support price, in kharif and rabi seasons.

Rs.5000 per hectare assistance to the cotton and soybean farmers, in a limit of two hectares during Kharif season 2023-24.

A revolving fund of Rs 200 crores each is being created for assured purchase of onion and cotton.

Subsidy to registered milk producers - at Rs 5 per litre- An amount of Rs. 223.83 crores distributed to 2.93 lakh registered milk producers; The remaining subsidy will also be disbursed immediately.

Milk Subsidy - Rs. 5 per litre subsidy will continue from July 2024 onwards.

Launch of new Scheme- “Dairy Business Entrepreneurship Project”.
- create new entrepreneurs in the fields of animal husbandry, dairy farming, animal fodder and animal feed production.

Atal Bambu Samridhhi Yojana - Bamboo Plantation on 10,000 hectares of private land - farmers are provided a subsidy of Rs 175 per plant.

Bamboo will be planted in a large scale on waste land – In Nandurbar district planting bamboo on an area of 1.20 lakh acres.

The amount of compensation has been increased from Rs.20 lakhs to Rs.25 lakhs in the case of loss of life due to attack by wild animals, from Rs.5 lakhs to Rs.7.50 lakhs in the case of permanent disability, from Rs.1.25 lakhs to Rs.5 lakhs in the case of serious injury and from Rs. 20,000 to Rs. 50,000 in the case of minor injury. Crop damage compensation has also been increased from Rs. 25,000 to Rs. 50,000.

A special campaign to complete irrigation projects- 61 projects are expected to be completed - About 3.65 lakhs hectare irrigation potential will be created.

Maharashtra Irrigation Improvement Program -improve canal distribution systems of 155 projects about 4.28 lakh hectares of increased area will benefit from direct irrigation.

Financial assistance from NABARD - Rs.15,000 crores- for completion of incomplete irrigation projects as well as improvements in the distribution systems.

A pilot solar power project - at Mhaisal, District Sangli. The estimated cost is Rs. 1,594 crores - benefit about 75,000 farmer families of Sangli and Solapur districts.

All government irrigation schemes will be solarized – including Janai-Shirsai, Purandar lift irrigation schemes -to achieve the goal of clean and green energy. A Cost of Rs.4,200 crores is expected.
Vainganga-Nalganga interlinking project- Irrigation benefits to 3,71,277 hectares in Nagpur, Wardha, Amravati, Yavatmal, Akola and Buldhana districts.

Maharashtra Responsive Development Program - World Bank aided Program- costing Rs. 3,200 crores - implemented to avoid loss of lives and finances due to floods in Kolhapur and Sangli districts and to divert excess water to drought-affected areas.

Jalyukt Shivar Abhiyan-2, - A total number of 49,651 works completed - a provision of Rs. 650 crores.

“Galmukt Dharan, Gal yukt Shiwar” scheme - removing silt from 338 reservoirs -83,39,818 cubic meters of silt removed.

“Magel Tyala Solar Power Pump” - to provide uninterrupted electricity to farmers during daytime - worth Rs. 15,000 crores - total 8.50 lakh beneficiaries.

- 2.3. Highlights related to Rural Development & Non-Farm Sector
Every year, 50,000 youths will be imparted training to disseminate the information about the Government schemes to the people.

“Applied Knowledge and Skill Development for Human Development” -World Bank assisted project -costing Rs. 2307 crores - upgradation of 500 Industrial Training Institutes, strengthening of various institutions.

“Centre of Excellence” – Establishment in technical education institutions - in Mumbai, Pune, Nagpur, Amravati, Yavatmal, Kolhapur, Chhatrapati Sambhajinagar, Karad in District Satara and Avasari Khurd in District Pune.

“Swami Vivekananda International Skill Development Prabodhini” functional at Govandi, Mumbai - A total of 511 “Pramod Mahajan Rural Skill Development Kendras” - set up in rural areas – skill training to 18,980 candidates in the age group of 15 to 45.

Tribal Research and Training Institute (TRTI), Dr. Babasaheb Ambedkar Research and Training Institute (BARTI), Chhatrapati Shahu Maharaj Research and Training Institute (Sarathi), Mahatma Jyotiba Phule Research and Training Institute (Mahajyoti), Maharashtra Research and Training Prabodhini (Amrit) etc. - working on employment-oriented training programs - 2,51,393 students given training-52,405 students obtained jobs.

Research and Innovation Centers - a total of Rs 100 crores, i.e. Rs. 50 crores each from the universities and the Government.

Rs. 100 crores fund- for financial assistance to self-employment schemes, - through the Shabari Tribal Finance and Development Corporation.

Green hydrogen - investment of Rs. 2,11,400 crores - will generate 55,900 jobs.

“India Gems and Jewellery Park” -on 25 acres of land at Mahape, Navi Mumbai- It includes 2000 micro, small and medium enterprises with an investment of Rs.50,000 crores which will generate one lakh jobs.

An integrated and sustainable textile policy 2023 - 2028 – It envisages substantial investment of Rs. 25,000 crores and will generate 5 lakh jobs.

To increase private investment- Government has decided to set up small-scale textile industry complexes and technical textile parks.

Sant Shree Ruplal Maharaj Economic Development Corporation will be established for the economic, social and educational development of the Bari community which produces paan, paanpimpri and muesli.

Rs. 100 crores for stabilization and liquidity of credit institutions.

A provision of Rs.7,425 crores - for various housing schemes in 2024-25.

Mukhyamantri Gramsadak Yojana Phase-III - target of 23,000 Km of roads improvement will be completed in next three years.

Hon’ble Balasaheb Thackeray Smriti Matoshree Gram Panchayat Construction Scheme - Construction of 2567 Gram Panchayat Offices sanctioned.

World Heritage nomination -A proposal sent to UNESCO to get nomination for 12 forts of the Shiva period. Proposals will also be sent for Katal Shilpe in Konkan, Pandharpur Vari, Dahihandi Utsav and Ganeshotsav.

Western Ghat area of Satara district -an integrated tourism development plan worth Rs. 381.56 crores approved.

‘Mukhya Mantri Baliraja Vij Savlat Yojana- provide free electricity to agriculture pumps up to 7.5 horse power capacity- Will help 44.06 lakh farmers. Rs.14,761 crores of subsidy involved.

3. Govt Sponsored Programmes linked with Bank Credit
Benefit scheme of new wells for farmers belonging to Scheduled Castes and Scheduled Tribes under National Agriculture Development Plan.

Orchard Plantation Scheme under Mahatma Gandhi National Rural Employment Guarantee Act.

National Horticulture Mission - Establishment of Protected Agricultural Greenhouse under Integrated Horticulture Development Mission

Integrated Horticulture Development Mission- Nursery farming, Farm-pond, Ripening Chamber, mulching, cold storage, shednet, packhouse.

Crop Pest Surveillance and Advisory Project (CROPSAP) National Food Security Campaign - Coarse Grain (Maize) National Food Security Campaign- Cereal crops
Pradhan Mantri Krishi Sinchan Yojana - More crop per drop

Integrated Horticulture Development Campaign: Post-harvest project management Area Expansion

Agricultural Technology Management Agency- ATMA

Erection of onion storage structure with subsidy for construction

Pradhan Mantri Formalisation of Micro Food Processing Enterprises Scheme (PMFME) under Atmanirbhar Bharat Package

Central sector scheme of Financing facility under Agriculture Infrastructure Fund”

Traditional Agriculture Development Scheme (Organic Farming)
Dryland Area Development under National Sustainable Agriculture Mission (NMSA)

Chapter 2

Credit Potential for Agriculture

2.1 Farm Credit

2.1.1 Crop Production, Maintenance & Marketing

2.1.1.1 Status of the Sector in the District

The total geographical area of the district is 17.04 lakh hectares. As reported in the District Statistical Booklet 2022 the Net Sown Area is 14.99 lakh ha. Gross Cropped Area is 14.19 lakh ha and the cropping intensity is 113. Ahilyanagar soil is mostly Shallow red/grey soil deep black soil medium deep black soil type. The average rainfall in the district is 561 mm. Major crops in terms of area are Wheat Jowar Soybean Bajra Gram Sugarcane and Onion. The area under Soybean Maize cotton etc is comparatively showing an increasing trend while the area under Bajra is showing a declining trend. Summary of the major crops grown in the district for the year 2023-24 along with their area under cultivation and productivity:

Paddy: 17276 Ha - 428 Kg/Ha (Productivity), Soybean: 188860 Ha(Area)- 464 Kg/Ha (Productivity) , Bajra: 83032 Ha(Area)- 385 Kg/Ha (Productivity), Maize: 86240 Ha (Area)- 1294 Kg/Ha (Productivity), Tur: 62228 Ha (Area)- 603 Kg/Ha. (Productivity), Udad: 49648 Ha (Area)- 180 Kg/Ha (Productivity), and Cotton: 153342 Ha (Area) - 145 Kg/Ha.

Summary of the other major crops grown in the district for the year 2022-23:Wheat: 137075 Ha 2082 Kg/Ha Gram: 109100 Ha 896 Kg/Ha and Sugarcane: 153176 Ha 88.49 T/Ha.

2.1.1.2 Infrastructure and linkage support available, planned and gaps

As per the Agriculture Census Data 2015-2016 the area under Marginal Farmers (261083 Ha) is 20.08 under Small Farmers (371127 Ha) 28.55 and under Other Farmers (667818 Ha) 51.37.

During the year 2021-22, 2022-23 and 2023-24 as reported in the SLBC portal the credit disbursement under the sector of crop loan in the district was Rs. 467327 lakh Rs. 632568 lakh and Rs. 611987 lakh respectively. Krishi Vigyan Kendra Babhaleshwar (Ahilyanagar I) and Krishi Vigyan Kendra Dahigaon (Ahilyanagar II) are two KVKs in the district. There are around 10418 Fertiliser/Seed/Pesticide Outlets and around 11 seed processing units in the district.

2.1.2 Water Resources

2.1.2.1 Status of the Sector in the District

Irrigation projects are primarily implemented with the objective of developing irrigation facilities improving water-use efficiency and reducing regional imbalances. Irrigation projects can be covered under three major headings viz. Major irrigation (command area more than 10000 ha) Medium irrigation (command area from 2000 to 10000 ha) and Minor irrigation (command area less than 2000 ha).

The normal rainfall in the district is around 561 mm. The rainfall during 2023-24 was 515.2 mm. As per the ground water survey and development agency in the district there are 04 blocks (Kopargaon Rahuri Shrirampur and Sangamner) under the critical category 05 blocks (Akola Newasa Pathardi Shevgaon and Shrigonda) under Semi-critical category while Rahta block falls under over exploited category while remaining four blocks fall under safe category .

2.1.2.2 Infrastructure and linkage support available, planned and gaps

There are 07 major 08 medium and 72 small irrigation projects in the district. Ground water (well irrigation) which is major source of irrigation provides irrigation facilities to about 54 of the Net Irrigated Area while canal network and other surface water sources provide irrigation to 46 area. Government of India has been according lot of importance to irrigation through the Pradhan Mantri Krishi Sinchai Yojana (PMKSY) with the vision of 'Har Khet Ko Pani' (water to every farm) i.e. extending the coverage of irrigation and 'Per Drop More Crop' i.e. improving water use efficiency. Besides micro irrigation is also promoted through Mukhya mantri Shashwat krushi Sinchan Yojana. There is well built network of dealers suppliers for materials and machinery and after sales services. Government is emphasising on drip irrigation in sugarcane by planning to introduce concessional rate of finance in order to increase productivity and make optimum use of scarce water resource. Further in the district use of flood irrigation has resulted in depleted quality of soil.

2.1.3 Farm Mechanization

2.1.3.1 Status of the Sector in the District

Farm mechanization means the use of machines and technology in the agriculture sector to increase productivity of land and labour through timeliness of operations efficient use of inputs improvement in quality of produce safety & comfort of farmers reduce loss of produce & drudgery of farmer and even helps in fighting against climate change. In the present scenario farm mechanization has become a necessity due to higher costs paucity of farm labour and ever-increasing demand for agricultural products.

2.1.3.2 Infrastructure and linkage support available, planned and gaps

(i) The availability of various agricultural machineries and implements and

their benefits needs to be popularised among all categories of farmers.

(ii) Dealer Network: The usage of combine harvesters in the recent past has been increased and it was observed that many combine harvesters are procured on custom hire from Punjab and other State. Therefore there is a need to strengthen the dealer network for combine harvesters. Further there have been instances of use of Sugarcane harvester in the district.

(iii) The repair and service centres for tractors are adequately available in the district. However centres for repair and shops for spare parts of combine harvesters/ sugarcane harvesters are not easily available.

2.1.4 Plantation & Horticulture, including Sericulture

2.1.4.1 Status of the Sector in the District

Horticulture is gaining importance in Ahilyanagar as it fetches good price and good income for farming community. Based upon the agro climatic conditions in district dry land horticulture is practiced. More and more area is being brought under cultivation of pomegranate orange and vegetable crops. Availability of nearby markets like Aurangabad Pune Nashik and Mumbai has also created demand. Major horticulture crops of district: (1) Fruit crops: Pomegranate Orange Guava Grapes Custard Apple Lemon (2) Vegetable crops: Brinjal Cauliflower Cabbage Beans (3) Floriculture: Marigold Rose cultivation of Jerbera Carnation in protected cultivation (4) Sericulture – It is also on rise as it provides additional income to farmers in case of failure of regular crops. Further ATMA is also promoting mushroom cultivation in district.

Sericulture: Programmes for generating awareness amongst farmers about the economic benefits of sericulture and training them on raising feed plantations and rearing silk worms may be arranged. Irrigation is a crucial element for mulberry cultivation which may require Government support.

2.1.4.2 Infrastructure and linkage support available, planned and gaps

In Ahilyanagar Rahata block is famous for quality guava. Guava fruit processing units can be set up in Rahata. There is huge potential for processing of lime in Shrigonda and Jamkhed blocks processing of pomegranate in Sangamner Newasa Rahuri and Kopargaon blocks. Huge potential is there for processing of mandarin orange in Ahilyanagar block processing of onion in Parner block processing of banana in Rahuri Shevgaon Shrigonda Karjat blocks processing of grapes in Rahata Shrigonda Sangamner and Karjat blocks.

1. Mahatma Phule Krishi Vidyapeeth Rahuri and Krishi Vigyan Kendra (KVK) Bhabhaleshwar provide guidance through and awareness programmes.

2. Support from National Research Centres is available for training of farmers and Agriculture Department's technical staff for new techniques in production technologies in Horticulture Crops.

3. There is scope to improve mulberry cultivation rearing/reeling techniques and genetic stock as high productivity is the key for survival and popularising this activity. The demand pattern being around 80 for quality yarn sericulture promises to be a profit making venture or at least one which could generate supplementary income to

the poor farmer.

4. Cluster approach being adopted in a few districts may be spread throughout the state which ensures availability of technical and financial inputs to the sericulture farmers. NGOs may be involved by the Department for social mobilisation.

2.1.5 Forestry & Waste Land Development

2.1.5.1 Status of the Sector in the District

In the District total land under forest is 1492.77 sq. km. Forests are important and essential not only for the material benefit such as timber firewood minor forest produce but also for their vital role in protection from land erosion and floods and to promote ecological balance. The Akole block has the maximum area under forest whereas Shevgaon block has the lowest area under forest. The major products from the forest include wood used for construction and as fuel wood. The other minor produce includes grass tendu leaves hirda etc. There are 18 forest nurseries with the total capacity of 72 lakhs plants in the district located in talukas viz. Nagar (2) Srigonda (2) Rahuri, (1) Parner (2) Sangamner (3) Akole (3) Pathardi (3) Jamkhed (1) and Karjat (1). Forestry development is also taken up in watersheds developed under IGWDP DPAP etc. with the help of NGOs/Agriculture Department.

2.1.5.2 Infrastructure and linkage support available, planned and gaps

Agroforestry offers a solution by integrating trees with crops horticulture and animal husbandry improving land productivity soil conservation and climate moderation. This traditional practice enhances economic returns and mitigates environmental risks. Agroforestry systems also support additional income through activities like poultry mushroom growing fish farming beekeeping and sericulture. The interaction between these elements makes agroforestry a versatile and beneficial land use system. Agroforestry systems integrate various components for enhanced productivity and protection. Agri-Silvicultural Systems use spatial arrangements for timber fodder and fuel wood serving as windbreaks and shelterbelts. Silvi-Pastoral Systems focus on food fiber and shelter for soil conservation. Agro-Silvi-Pastoral Systems utilize temporal arrangements for soil improvement and non-timber forest produce.

2.1.6 Animal Husbandry – Dairy

2.1.6.1 Status of the Sector in the District

As per 20th Livestock census 2019 district has 13.8 Lakhs cattle constituting 9.86 of state total of 139.93 Lakhs. Further district has 2.21 Lakhs buffaloes constituting 3.94 of total of 56.04 Lakhs available in Maharashtra state. Ahilyanagar is leading district in dairy development. Majority of production is marketed in Mumbai. The collection of milk processing and transport provides large scale employment. The milk is marketed in nearby district viz Dhule Nashik Nandurbar and also in Metro Cities like Pune and Mumbai.

2.1.6.2 Infrastructure and linkage support available, planned and gaps

1. There are six livestock markets (Ghodegaon Walki Rajur Kashti Loni and Kopargaon) where quality animals were available. Such markets can be developed in the remaining blocks also. The district is one of the main sources for availability of CB Cows for the entire state.
2. There is good scope of secondary milk products like Dahi (Curd), Ghee, Butter Milk Cheese etc.
3. CB cows can be supplied through animal markets at Loni Ghodegaon Rashin Jamkhed and Kashti in district.
4. There is a repeat breeding problem due to malnutrition inbreeding and infection. Further there is reducing trend of productivity due to indiscriminate and poor quality artificial insemination service. Clean milk production is also very less. The housing management for milk cattle is also poor. Cattle are also suffering from ecto and endo parasite infection. There is no balanced rationing of feed supplement. Dry fodder is not available in adequate quantity. There are instances of frequent sickness in lactation.

2.1.7 Animal Husbandry – Poultry

2.1.7.1 Status of the Sector in the District

As per 20th Livestock census 2019 district has 73.61 Lakhs poultry including 60.58 lakh improved poultry and 13.03 lakh indigeneous poultry.

2.1.7.2 Infrastructure and linkage support available, planned and gaps

1. Chicks are readily available from nearby hatcheries from Pune and Nasik districts. The poultry feed equipment medicine water and electricity are available in the district.
2. Market links are well developed. Support services like training technical consultancy extension services veterinary services are available. Still there is a scope for further improvement due to increase in number of farmers opting for poultry activity.
3. Off late in the district Poultry activity is undertaken on contract basis. These are usually private players and have their own pre decided terms and conditions including rates for purchase. In order to protect the interest of persons/ farmers running poultry adequate representation to be given to them before finalizing the predetermined rates.
4. Further major cost is towards input feed like Maize and Soya. The rates are market determined. In case of contract poultry farming the feed is provided directly by companies to farmers. Sudden rise in the price may have adverse impact on economy of poultry business. Poultry Feed Plants have to ensure supply of least cost feeds of different types.

2.1.8 Animal Husbandry – Sheep, Goat, Piggery

2.1.8.1 Status of the Sector in the District

As per 20th Livestock census 2019 the population of sheep goat and pig in the district is 3.04 lakh 11.94 lakh and 0.054 lakh respectively. The district contributes 9.39 of goat population 14.02 of sheep population and 4.29 of pig population of state. The wool production and goat milk production was 159.60 ton and 313.75 lakh kgs respectively.

2.1.8.2 Infrastructure and linkage support available, planned and gaps

1. Animals can be supplied through animal markets at Loni Ghodegaon Rashin Jamkhed and Kashti in district.
2. Extension / health services are available through the veterinary institutions under departments of Animal Husbandry and Zilla Parishad.
3. The District Cooperative Goat Rearing and Processing Federation Ltd is encouraging stall fed goat rearing for meat purpose.
4. Mahatma Phule Kisi Vidyapeeth (MPKV) supplies quality animals to the farmers besides technical guidance and training.

2.1.9 Fisheries

2.1.9.1 Status of the Sector in the District

The district is landlocked and having scope of inland fisheries. Inland Fishery is an important farm based activity capable of supporting farm families by utilizing available resources with few modifications in existing structures and adoption of recommended technologies. The district is endowed with 587 kilometer of riverine stretch and 10932 Hectares of Water Spread Area in around 80 water bodies spread across 10 blocks with major area in Rahuri Srigonda and Karjat. The fish production in the district is 1688 MT with value of Rs. 2708.87 lakh (district statistical booklet 2021-22).

2.1.9.2 Infrastructure and linkage support available, planned and gaps

Infrastructure status:

Mulanagar farm had achieved seed production of 2 crore spawn per year. There were two seed rearing units at Seena and Musalwadi. Under Fisheries Development Project selected ponds were taken up for development by the fishermen residing nearby who were trained in scientific methods for increasing production and also in utilizing maximum water spread area. Western Ghat Development Scheme sponsored by Central Government implemented in Akole block for the benefit of tribal fishermen. Under the scheme the fishermen undertook fresh water prawn and fish culture.

Critical intervention required: Societies of fishermen need to be developed and model project to be implemented with financial assistance from banking sector for fisheries. After its success the same need to be replicated elsewhere. Societies are willing to go for bank loan and are ready to comply with security requirements; hence banks have

potential to lend for fisheries. Such model project needs to be prepared and financed by banks.

2.1.10 Farm Credit – Others

2.1.10.1 Status of the Sector in the District

Due to small size of land holding and suitability of bullocks for ploughing and other agricultural operations majority of the farmers still follow the traditional method of agriculture using bullocks for ploughing and other agricultural operations. Bullock carts are still used for transportation of agricultural produce. Even today bullocks continue to be source of power for agricultural operations for large number of farmers with small unirrigated land holdings as mechanisation is not viable option for them. Major source of power for agricultural operations in rural India is bullocks. The large number of sugar factories in the district also offer potential for financing bullocks & bullock carts for transporting sugarcane from field to the factory. Further activity like farm house can also be source of income to farmers considering emphasis given on rural tourism and also can be utilized for stay purpose of farmers and agricultural labourers.

As per the description of eligible categories under agriculture in the PSL master direction by RBI financing to Farmer Producer Organisations (FPO) has been categorised under the farm credit. Loans subject to a limit of Rs. 5 crore per borrowing entity to FPOs/FPCs undertaking farming with assured marketing of their produce has been covered under the farm credit non-individual category.

2.1.10.2 Infrastructure and linkage support available, planned and gaps

Availability of improved breed of animals (Khillari and Dangi) in the four major cattle markets in the district.

1. Bullocks are available from cattle markets in almost all the blocks of the district.
2. There are many fabricators of good quality carts with steel wheels and also wooden carts.
3. The district has Mobile Veterinary Dispensary Veterinary Polyclinic and other veterinary institutions which are considered adequate for providing veterinary services.

2.1.11 Sustainable Agricultural Practices

2.1.11.1 Status of the Sector in the District

An Integrated Farming System (IFS) is defined as “a judicious combination of two or more components using cardinal principles of minimum competition and maximum complementarity with advanced agronomic management tools aiming for sustainable and environment friendly improvement of farm income family nutrition and ecosystem services”. Assessment of farm incomes indicate that diversified farms with more than two enterprises get twice the income than those with two or less enterprises. Scientifically designed IFS with minimum competition and maximum complementarity are essential to achieve multiple goals.

The advantages of IFS are indicated below:

Soil fertility and productivity enhancement through organic waste recycling and increased sustainable farm income -

1. Integrated farming system shall meet the energy and timber needs of rural households and also timber needs of construction sector in a cost effective manner.

2. Higher food production to equate the demand of the exploding population

The various components of IFS are crops live stocks birds and trees. The crops may have subsystem like mixed/intercrop multi-tier crops. The livestock components may be milch animals goat sheep poultry and the tree components include fruits timber fuel and fodder. The major factors which need to be considered in choosing an IFS model are soil type rainfall its distribution and length of growing season.

2.1.11.2 Infrastructure and linkage support available, planned and gaps

Three agriculture universities in Maharashtra have proposed Integrated Farming System (IFS) models each tailored for different conditions: Mahatma Phule Krishi Vidyapeeth (MPKV) Rahuri: Irrigated Conditions: The model for one hectare includes crops horticulture and animal husbandry. The estimated expenditure is primarily on horticulture and animal husbandry totaling approximately 524196.

Dry Land Conditions: The model focuses more on horticulture and animal husbandry with a total estimated expenditure of 293693. No costs are allocated for crop loans or farm ponds in this model. Vasantrao Naik Marathwada Krishi Vidyapeeth Parbhani: The irrigated model for one hectare includes crop loans horticulture animal husbandry boundary plantation and vermicomposting. The total cost is about 524291 with significant expenditures in animal husbandry and vermicomposting.

Dr. Balasaheb Sawant Konkan Krishi Vidyapeeth (DBSKKV) Dapoli: The irrigated model includes expenses for crop loans horticulture animal husbandry and vermicomposting. The total estimated cost is 581676. This model places substantial emphasis on animal husbandry and vermicomposting. Each universitys model outlines the financial requirements for implementing IFS on one hectare of land taking into account the specific conditions of irrigation and crop types. Bankers are encouraged to evaluate these models for financial and technical feasibility to provide appropriate funding.

2.2 Agriculture Infrastructure

2.2.1 Construction of Storage and Marketing Infrastructure

2.2.1.1 Status of the Sector in the District

Scientific storage and handling of agricultural produce are crucial to minimizing post-harvest losses and maintaining nutritional quality. Efficient marketing arrangements are also essential for ensuring fair prices for farmers. Taking into consideration the milk production increasing horticulture production and other crops scientific storage and agri value chain has important role in the district.

2.2.1.2 Infrastructure and linkage support available, planned and gaps

In the district there are 41 godowns of Maharashtra State Warehousing Corporation with the storage capacity of 40360 MT spread over all the blocks of the district at various places including Kedgaon Khadki Kopargaon Navnagapur Newasa Sangamner Shrirampur and Wambori. As per district statistical booklet there are also 14 cold storage with capacity to cater to 775000 ltr. of milk.

2. There are 14 main market yards and 29 sub market yards of APMC / controlled market yards in all the blocks. These market yards provide place for free and fair trading grading & weighing facilities and also facilitates farmers to market their commodities.

Various schemes such as Central Sector Scheme of 'Financing Facility under Agriculture Infrastructure Fund' Agricultural Marketing Infrastructure Sub-Scheme Of Integrated Scheme For Agricultural Marketing Special Refinance Facility for Transformation of PACS as MSCs (for DCCBs) etc are playing important supportive role in this sector.

2.2.2 Land Development, Soil Conservation and Watershed Development

2.2.2.1 Status of the Sector in the District

A good number of watershed projects (around 50) have been completed in Ahilyanagar which offer good scope for lending by banks to watershed plus activities/under banking plans etc.

GIZ Soil Project: Pro-soil project is being implemented in Parner block of Ahilyanagar with financial support of GIZ covering 5861 Ha of area under cultivation for 1225 households. Various interventions for soil and water conservation are being implemented in project area like construction/ repair of KT weir Nallah deepening gap filling of soil and water conservation work construction of check dam gabion Nallah Bunds. Further sustainable agriculture and soil husbandry practices are also being practiced in project by organizing farmers' field school agriculture demo plots and promotion of FPO. Soil Health Cards: There are 11 approved labs in Ahilyanagar district to test soil samples for micro-nutrients present.

Land leveling and On Farm Development Works: The Command Area Development Authority has implemented 42 irrigation projects (three major two medium and thirty-seven minor) with total command area of 98159 hectares. Mula Irrigation Project and Kukadi Irrigation Project are two major irrigation projects in the district. The Mula Project covered Rahuri Newasa Pathardi and Shevgaon blocks whereas Kukadi Projects covered Parner and Shrigonda Blocks. Potential is available for On Farm Development (OFD) activities in these areas.

2.2.2.2 Infrastructure and linkage support available, planned and gaps

Land Reclamation and Drainage: Reclamation of salt affected soils in the command area of co-operative lift irrigation scheme and other areas needs to be taken up in a coordinated manner by the Directorate of Irrigation Research and Development (DIRD) Commissioner of Agriculture sugar factories and banks.

2.2.3 Agri. Infrastructure – Others

2.2.3.1 Status of the Sector in the District

Increasing awareness of health and environmental issues is driving the demand for organic agricultural products positioning organic farming as a growing sector. Plant tissue culture has become vital for plant propagation and disease prevention yielding high-quality vigorous plants that grow faster than conventional methods.

Biotechnology plays a significant role in plant protection enhancing soil fertility pest management and veterinary supplements. Identifying suitable areas and crops is crucial for promoting organic farming.

Quality seeds are essential for agricultural productivity requiring increased production to meet future food demands. Uncontrolled use of chemical fertilizers degrades soil quality while biofertilizers can boost productivity by 10-15 and improve soil health.

Farmers are increasingly interested in organic manure with methods like vermi-composting and NADEP composting producing effective results. Other practices such as using green manure and beneficial microbes also enhance soil conditions. A holistic approach combining integrated nutrient and pest management along with region-specific cropping systems is recommended. Key activities for credit potential include tissue culture labs biofertilizer and pesticide units and composting facilities.

2.2.3.2 Infrastructure and linkage support available, planned and gaps

At present there is one bio technology laboratory with MPKV Rahuri. Further MPKV also has biofertiliser manufacturing unit. State Agri department also has biofertilizer manufacturing unit in Ahilyanagar.

2. The area under cultivation for pomegranate is increasing in district due to more farmers having irrigation facility are willing to go for this cash crop. Tissue culture has been standardised for production of planting materials of pomogranate.
3. Use of enzymes in food and agro-processing conversion of bio-mass into compost paper and pulp industry animal health disease control leather processing modern fish feed development etc are in purview of this sector.
4. Crop based developments in disease control superior livestock seed production can be provided through exposure visits of farmers to such institutions.

2.3 Agriculture – Ancillary Activities

2.3.1 Food & Agro Processing

2.3.1.1 Status of the Sector in the District

Post-harvest technology and management (food and agro processing) play a crucial role in value addition to agriculture. Due to lack of adequate agro-processing facilities the post-harvest losses are very high in agriculture especially under horticultural crops. The value addition in dairy sector is minimal processing and value addition of meat is negligible. Similarly the spoilage loss is very high in fisheries sector due to

lack of processing. Government of India have therefore identified Food and Agro Processing sector as one of the thrust areas.

The presence of agro/ food/ fruit processing in the Srirampur and Rahata blocks is almost negligible except Sugarcane processing.

2. Shrirampur provides variety of crops. Rahata is also famous for quality guava. Guava fruit processing units can be set up in Rahata.

3. There is huge potential for processing of lime in Shrigonda and Jamkhed blocks processing of pomegranate in Sangamner Newasa Rahuri and Kopargaon blocks.

4. Huge potential is there for processing of mandarin orange in Ahilyanagar block processing of onion in Parner block processing of banana in Rahuri Shevgaon Shrigonda Karjat blocks processing of grapes in Rahata Shrigonda Sangamner and Karjat blocks.

5. Dairy is another sector where further processing and marketing can be explored.

2.3.1.2 Infrastructure and linkage support available, planned and gaps

Based on raw material availability in the district the following activities hold potential for food and agro-processing - Food grains (rice jowar bajra etc.): Noodles Flours (fortified) Biscuits & bakery Breakfast cereals & Mixes. Maize: Flour corn flakes corn meal corn oil starch and its derivatives (like glucose starch) ethanol alcohol poultry feed etc. Pulses: Ingredient to various mainstream processing items such as snacks. Oilseeds: Refined oil cattle feed.

Vegetables like okra carrot chili peas beans etc.: Fresh cut Frozen and assorted products. Tomato: Puree Juice concentrate ketchup sauce etc. Guava: Juice concentrate Fruit drinks frozen halves candies. Grapes: Wine. Banana: Chips other processed products. Mango: Pickle Aam Papad Chutney Candy dried mango powder etc. Milk: Butter crème ghee cheese flavoured milk milk powder ice-cream curd buttermilk etc. Establishment of food parks may boost the food processing industry in the district.

2.3.2 Agri Ancillary Activities – Others

2.3.2.1 Status of the Sector in the District

Agriculture Ancillary activities provide necessary vigor and deepening of the agriculture sector activities. Primary Agricultural Cooperative Societies (PACS) undertake a wide variety of operations such as lending inputs sales consumer goods sales farm produce purchase and processing and deposits collection. Forming a producer organization/company can also provide access to timely and adequate finance build capacity and provide linkage to markets. Agri-Clinics are envisaged to provide expert advice and services to farmers on various technologies which would enhance productivity of crops/animals and ensure increased income to farmers. Agri-Business Centres are commercial units of agri ventures established by trained agriculture professionals. These supplementary activities provide necessary boost/support for agriculture development.

2.3.2.2 Infrastructure and linkage support available, planned and gaps

The prominent sectors which have presence of cooperative societies in the district Ahilyanagar are presented with their numbers in the bracket - PACS (1359); Adivasi Coop Societies (38); Primary Fruit Vegetable Marketing Societies (32); Sugar Mills (23); Central Milk Supply Federation Societies (14); Primary Milk Supply Societies (916); Primary AH Societies (107); Primary Fisheries (51); etc. Also due to the Agricultural University at Rahuri and Other Agricultural Institutions there is a good scope for financing agri-graduates and entrepreneurs.

Chapter 3

Credit potential for MSMEs

3. Credit potential for MSMEs

3.1 Status of the Sector in the District

Classification of MSME:

The Central Government has notified the following criteria for classification of micro small and medium enterprises w.e.f 1st July 2020:—

- (i) A micro enterprise where the investment in Plant and Machinery or Equipment does not exceed one crore rupees and turnover does not exceed five crore rupees;
- (ii) A small enterprise where the investment in Plant and Machinery or Equipment does not exceed ten crore rupees and turnover does not exceed fifty crore rupees;
- (iii) A medium enterprise where the investment in Plant and Machinery or Equipment does not exceed fifty crore rupees and turnover does not exceed two hundred and fifty crore rupees.

In Ahilyanagar district there are 05 MIDCs located one each at Shrirampur Newasa Ahilyanagar Rahuri and Parner block with 1744 units, 590 units under co-operative industrial estate in four blocks, a robust sugar industry with co-operative and private investment. Industries in Sugar, pharma, engineering goods, agro-based industry etc. Five industrial clusters have been established in the district they are - Garment cluster one each at Sangamner & Kopargaon) auto-engineering cluster, printing cluster and gold cluster at Ahilyanagar.

3.2 Infrastructure and linkage support available, planned and gaps

As per the district statistical booklet (2023) there are 40909 enterprises have registered under Udyam AADHAAR in the districts. During the year 2022-23 as reported in the SLBC portal the credit disbursement under the sector of MSME in the district was Rs. 467721 lakh.

There are 16 (Govt. aided) and 26 (non-aided) ITIs in the district. Besides 37 vocational education institutes. The training in these institutes can be co-ordinated with the need of the industries being set-up in the district.

Chapter 4

Credit Potential for Export Credit, Education & Housing

4.1 Credit Potential for Export Credit

4.1.1 Status of the Sector in the District

Switchgear, Seamless Tubes, Automobile Print Circuit Board, Electric Motors, Forging Items, Pharmaceuticals etc. are some of the potential industrial export oriented products from the district (MSME DI - Report). Besides Govt of Maharashtra in its Export promotion policy 2022 has identified Pomegranate, grapes, onion, vegetables, Keshar Mango, pulses dairy and meat products under its cluster development programme.

4.1.2 Infrastructure and linkage support available, planned and gaps

Awareness and facilitation may be provided to farmers and entrepreneurs regarding package of practices to be adopted in identified clusters for enabling and development of export of products.

4.2 Credit Potential for Education

4.2.1 Status of the Sector in the District

Alongwith the agricultural university at Rahuri there are 123 Graduate/Post Graduate Colleges with the strength of around 88895 students in addition to 177 Technical/ Engineering/ Medical Education Institutes. During the year 2022-23 as reported in the SLBC portal the credit disbursement under the sector in the district was Rs. 4526 lakh.

4.2.2 Infrastructure and linkage support available, planned and gaps

Credit Guarantee Fund for Education Loans (CGFEL) Scheme - This scheme came into force vide notification dated 16 September 2015 of Government of India. Central Sector Interest Subsidy (CSIS) Scheme This scheme was launched by Ministry of Human Resource Development (MHRD) on 1st April 2009. Under the Scheme full interest subsidy is provided for the education loan taken from Scheduled Banks under the Model Education Loan Scheme of Indian Banks Association.

4.3 Credit Potential for Housing

4.3.1 Status of the Sector in the District

The housing sector is one of the prime engines of economic growth as it satisfies the social needs generates employment and stimulates economy with its spill-over effects. During the year 2023-24 as reported in the SLBC portal the credit

disbursement under the sector in the district was Rs. 39165 lakh. The number of beneficiaries registered on Awasoft under PMAY was 85256 (rural) and 4535 (urban).

4.3.2 Infrastructure and linkage support available, planned and gaps

As per the RBI guidelines on Priority Sector Lending (RBI/FIDD/2020-21/72 Master Directions FIDD.CO.Plan.BC.5/04.09.01/2020-21 Updated on 26 October 2022):

a. Bank loans to Housing sector as per limits prescribed below are eligible for priority sector classification:

(i) Loans to individuals up to Rs.35 lakh in metropolitan centers (with population of ten lakh and above) and up to Rs.25 lakh in other centers for purchase/construction of a dwelling unit per family provided the overall cost of the dwelling unit in the metropolitan center and at other centers does not exceed Rs.45 lakh and Rs.30 lakh respectively. Existing individual housing loans of UCBs presently classified under PSL will continue as PSL till maturity or repayment. With the increasing urbanization, increasing employment opportunity, irrigation and other infrastructure facilities there is an increasing demand for houses in the rural and urban part of district.

Chapter 5

Credit Potential for Infrastructure

5.1 Infrastructure - Public investments

5.1.1 Status of the Infrastructure in the District

In Ahilyanagar district the total length of the road is 22106 Km. Around 1581 villages are connected by all weather roads. It has a railway network of 197 Km and 665 postal Offices. There are seven big, 08 medium and 33 small/minor dams in the district.

5.1.2 Infrastructure and linkage support available, planned and gaps

Financial Management: Addressing the shortfall in disbursements and ensuring timely completion of projects is essential.

Resource Allocation: Increasing public investment in rural infrastructure to supplement the efforts of State Governments.

Capacity Building: Promoting capacity building initiatives for sustainable infrastructure development. Key areas include improving rural roads and bridges to enhance connectivity, intensive financing for irrigation projects to boost agricultural productivity, and micro irrigation for optimal water use. Support is also provided for the animal husbandry sector, rural godowns, cold storages, market yards, rural haats, and export facilitation centers. Public health institutions and rural education infrastructure are also funded, along with agro-processing sector infrastructure and agriculture/horticulture farms. These initiatives aim to improve rural infrastructure, enhance agricultural productivity, and promote overall rural development.

5.1.3 Benefits of RIDF Projects (except irrigation, rural roads and bridges)

Besides irrigation, rural roads and bridges, RIDF projects were sanctioned to create 120 aanganwadis, 4580 MT of storage capacity and creation of water waste management project.

Economic Development: These projects have significantly contributed to the economic development of Ahilyanagar district by enhancing irrigation potential, improving rural connectivity, and supporting social sector initiatives.

Employment and Livelihood: The construction of rural roads, bridges, and irrigation projects has created employment opportunities and improved the livelihoods of rural populations.

Social Benefits: Social sector projects, including those related to education and health, have improved the quality of life for rural communities.

5.2 Social Infrastructure involving Bank Credit

5.2.1 Status of the Sector in the District

Though infrastructure development in general improves the standard of living of the people there are certain types of investment which have a direct bearing

on the social lives of the people especially in the rural areas. Investments in schools health centers drinking water and sanitation facilities are examples of some such sectors which can be termed as Social Infrastructure. Around 219 Gram Panchayats in the district are connected with high speed internet. Around 1581 villages in the district are having 5211 primary schools and some source of providing drinking water. There are 28 hospitals 28 dispensaries 107 PHCs and 565 PHCs sub-centres under public health facilities.

5.2.2 Infrastructure and linkage support available, planned and gaps

Available Infrastructure:

Road Network: Total Road Length: 22,106 km, including national highway (408.21 Km), state highways (1896 km), district roads (8578 km), and village roads (11223 Km).

Drinking Water: Supply: Drinking water is supplied through pipelines in 1581 villages, with 311 villages facing shortages. The district administration supplies water through tankers and other channels in the villages facing water shortage.

Sanitation:

Facilities: All-most all households below poverty line and above poverty line have access to sanitation facilities, but maintenance and quality could be improved.

Gaps and Areas of Concern:

Drinking Water Shortage: Despite piped water supply, 311 villages face drinking water shortages.

Road Quality: Poor quality of road construction and maintenance.

Irrigation Shortages: Seasonal Shortages: Shortage of water during summer seasons, affecting agricultural productivity.

5.3 Renewable Energy

5.3.1 Status of the Sector in the District

Wind solar biomass biogas sea waves geo-thermal etc. are the renewable clean and eco-friendly energy sources. Maharashtra Energy Development Agency (MEDA) is the designated agency to coordinate regulate and enforce the provisions of the Energy Conservation Act 2001. MEDA is actively engaged in propagation & promotion of renewable energy and implementation of energy conservation programmes.

5.3.2 Infrastructure and linkage support available, planned and gaps

Geographical location of Ahilyanagar is conducive for wind power harnessing. Its typical plateau location makes it more suitable for wind power generation. Similarly, Ahilyanagar district is also favourable for solar power generation.

Electricity generation from Wind Mill, solar power generation and gasification of biomass has good potential in the district.

RIDF

1. Details of RIDF projects sanctioned in the district are given below:

(₹ crore)

Sr. No.	Tranche	No. of projects	Fin. Outlay	RIDF Loan
A	Closed Tranches	640	737.697500	649.0882
B	Ongoing tranches	88	555.217200	351.8881
	Total (A + B)	728	1292.914700	1000.9763

2. The sector-wise details of RIDF projects sanctioned in the district various categories are as given below:

(₹ crore)

Sr. No.	Sector	Projects sanctioned (No.)	Fin. Outlay	RIDF loan
A	Irrigation/ Agriculture	7	7830.799200	6829.3941
B	Rural roads & bridges	550	520.277700	416.2161
C	Social Sector	171	58.105400	53.5602
	Total (A + B + C)	728	8409.182300	7299.1704

3. Some of the benefits accrued from the projects sanctioned under RIDF in the district are as under:

Sr. No.	Sector	Projects sanctioned (No.)	Likely benefit	Unit	Value
A	Irrigation	7	Irrigation potential	ha	99825
B	Rural roads	411	Road length	km	1064.56
C	Bridges	139	Bridge Length	m	4410.2

3. a Details in respect of other RIDF projects are given below.

Sr. No.	Sector	Projects sanctioned (No.)	Likely benefit	Unit	Value
1	Maharashtra Jeevan Pradhikaran	1	0	0	0
2	Construction of Anganwadi Centres	120	0	0	0

3	Construction of Godown of 1800 MT	2	0	0	0
4	Maharashtra Jeevan Pradhikaran	2	0	0	0
5	Construction of Godown of 500 MT	25	0	0	0
6	Construction of Godown of 1080 MT	13	0	0	0
7	Construction of Godown of 3000 MT	8	0	0	0

Chapter 6

Informal Credit Delivery System

6.1 Status of the Sector in the District

As per the district statistical booklet (2023) as on 31 March 2023 there are 35516 SHGs in 14 blocks out of which 24707 SHGs are credit linked. All the 14 blocks in the district have been identified as NRLM intensive blocks.

6.2 Infrastructure and linkage support available, planned and gaps

MSRLM MAVIM are having good network in the district. There are no major issues pertaining to SHG credit linkage, however process at Branch level w.r.t opening of SHG Savings account needs to be further simplified.

Chapter 7

Critical Interventions Required for Creating a Definitive Impact

1. Farm Credit

- i. Department of Agriculture Department of Animal Husbandry and Fisheries may identify suitable farmers under crop cultivation dairy and fisheries activities and coordinate with banks for issue of KCC.
- ii. Creation of adequate storage/post-harvest infrastructure especially for perishable and price sensitive crops for ensuring proper handling of agri-produce and to check distress sales by the small farmers. The Negotiable Warehouse Receipt Scheme also needs to be popularized further.
- iii. Use of Information and communications technology (ICT) like precision farming, availing real time information on - weather forecasts, market prices, expert advice etc. in agriculture and adoption of climate resilient agriculture.
- iv. To identify eligible farmers from the list of PM Kisan beneficiaries for issue of KCC.
- v. Increase the coverage of crop loans by financing new farmers particularly SF/MF tenant farmers share croppers etc.

2. Water Resources

- 1 There is a need to carry out artificial recharge measures through construction of rain water harvesting structures like rain water storage tanks percolation tanks farm ponds check dams etc. It should be complemented with adoption of proper water management practices and use of suitable micro irrigation systems like drip/sprinkler.
- 2 Irrigation department needs to provide information on surface water sites suitable for lift irrigation and potential available to banks Agriculture Dept. Panchayat Samitees and DRDA to enable them to support LI schemes.
- 3 Drip Irrigation system needs to be further promoted by Agriculture Dept on sugarcane as a special package as it will conserve water and also arrest water logging. The cost effectiveness can be achieved on paired row plantation of sugar cane. The sugar factories may be advised to take necessary initiatives.

3. Farm Mechanization

- 1 To address the problems of mechanization of smaller holdings, the following possibilities need to be explored:
 - a. Cooperative management of farm machinery.
 - b. Financing of second hand tractors for small farmers.
 - c. Promoting purchase of tractors by JLGs /SHGs.
 - d. Establishment of CHC (Custom Hiring Centre).

4. Forestry/ Waste Land Development

- 1 Appropriate forward and backward linkages like supply of quality saplings, processing and marketing can be developed at the ground level.
- 2 There is a good potential for financing pulpwood plantation especially clonal plantations and plantation of Eucalyptus, Acacia hybrid, Bamboo, Subabaul and Casuarina.
Awareness regarding Bamboo plantation needs to be created so as to boost its commercial plantation. Besides, adequate infrastructure for setting up industries for new generation bamboo products such as pre fabricated housing, flooring, panels, corrugated sheets etc.,.

5. Animal Husbandry - Dairy

- 1 In case of drought like situation or shortfall in rain dairy sector suffers due to shortage of good quality fodder and impacts health of livestock and in turn quality and quantity of milk production. Hence cultivation of good quality or new varieties of fodder needs to be adopted in consultation with Agriculture University.
- 2 There is scope for proper marketing of milk and milk products and also for the activities like proper storage of milk by way of bulk milk coolers etc. The same can be explored through FPOs of Animal Husbandry.
- 3 Measures to prevent adulteration of milk and encourage clean milk production. Periodical surprise checking of samples of milk supplied by various sources to be undertaken
- 4 Agriculture University to explore possibility of providing high quality pedigree bulls by “Embryo Transfer Technology” for use of AI
- 5 Veterinary Graduates to be supported for establishing poultry unit with consultancy under Agri Clinic Agri Business Centres (ACABC) Scheme

6. Animal Husbandry – Sheep, Goat, Piggery

- 1 SHG members need to be encouraged to undertake this activity by AH Department or Sheep Goat Development Corporation. Training and extension services for vaccination and shed construction.
- 2 AH department needs to strengthen / modernize infrastructure in selected livestock markets to act as model centres for procuring livestock.

7. Fisheries

- 1 The lease period of ponds and tanks owned by Gram Panchyat ZP municipalities and the irrigation department needs to be enhanced upto 10 years to match with bank loan repayment period. The present lease period is 05 years
- 2 SHGs of fishermen/ women to be formed should be linked with banks for meeting working capital credit requirement. Awareness regarding various avenues under inland fishing should be created among farmers.

8. Construction of Storage and Marketing Infrastructure

- 1 The storage at the Producers level may be increased through Producers Organisation.
- 2 The godown at the PACS level may be strengthened / modernized and the storage should be scientific and shall have minimum wastages.

9. Micro, Small and Medium Enterprises (MSME)

An Integrated infrastructure package for rural tourism with all the necessary components would impart a thrust to service sector.

10. Export Credit

- 1 Availability of infrastructure for exports like grading and packing units, quality testing labs certification issuance at local level, packing houses ,pre-cooling units, cold storages etc. need to be ensured for crops like grapes, pomogrenate, mango etc.
- 2 Agriculture Department / APEDA may arrange sensitization workshops for agri-exporters to make them aware about current export regulations/policies of importing countries domestic and international demand and supply situation price competitiveness quality concerns various certifications required Sanitary & Phytosanitary (SPS) requirements etc.

11. Housing

- 1 Lending under Housing sector by banks has been mainly restricted to urban areas and salaried class. Housing needs of rural people needs to be addressed. Banks to finance buyers from economically weaker sections. Around 89761 beneficiaries under PMAY were registered under Awassoft system. During 2022-23 around 9723 houses were sanctioned under PMAY and construction of around 1700 houses was completed.

12. Social Infrastructure

- 1 Critical infrastructure gap with respect to connectivity, irrigation facilities etc. may be identified by the implementing departments and may be taken up for implementation on priority basis.
- 2 Projects prioritized under RIDF, LTIF (Long Term Irrigation Fund- CADWM) may be completed as per the financial phasing and to ensure the same, implementing departments may ensure that adequate budgetary allocation may be provided for completion as well as maintenance of the projects to ensure benefits reach the beneficiaries at the right time. Implementing line departments may ensure that adequate budgetary allocation for maintenance of assets is made so that the infrastructure projects can be put to use for a longer period of time.

13. Renewable Energy

Awareness regarding benefits of renewable energy needs to be created. People should be made aware of the available schemes for adaptation of renewable energy.

14. Informal Credit Delivery System

- 1 DRDA and MAVIM should submit the loan cases of SHGs early to the banks after complete scrutiny at their level so as to avoid delay and have regular follow-up with banks.
- 2 Turn around time in opening of SHG savings account and processing of credit linkage proposal should be reduced to minimum possible and not beyond ten days. Bank may consider financing through JLG mode.

Chapter 8

Status and prospects of Cooperatives

1. Background

a. A cooperative is defined as ‘an autonomous association of persons united voluntarily to meet their common social, economic and cultural needs as well as their aspirations through a jointly owned and democratically controlled enterprise’.

b. A cooperative is governed by seven major principles, i.e. voluntary and open membership; principle of democratic member control; principle of member economic participation; principle of autonomy and independence; principle of education, training and information; principle of cooperation and, principle of concern for community. Cooperative enterprises help their members to collectively solve shared socio-economic problems. Cooperatives strengthen bargaining powers of their members, help them get access to competitive markets and to capitalize on new market opportunities. As such, they improve income opportunities, reduce costs and manage risks of the members.

2. Formation of Ministry of Cooperation by GoI

The GoI has set up a separate Ministry for Cooperation on 06 July 2021 which will provide a separate administrative legal and policy framework for strengthening the cooperative movement in the country, to help deepen the presence of cooperatives, to streamline processes for ‘Ease of doing business’ for co-operatives and enable development of Multi-State Co-operatives (MSCS). In the words of the Hon’ble Prime Minister, “The Cooperative movement is such a model which can provide a successful alternative to socialism and capitalism”.

3. Latest initiatives by Ministry of Cooperation (MoC), GoI

- The MoC has, in consultation, coordination and partnership with state governments, NABARD, national level federations, training establishments at state and national level and other stakeholders is working on the following initiatives.
- Computerization of Primary Agriculture Cooperative Societies: This scheme aims at computerization of 63000 functional PACS leading to increase in efficiency, profitability, transparency and accountability in the working of PACS.
- Co-operative Education - Setting up of World’s largest Cooperative University: This aims at introduction of cooperative education as a course curriculum and also as independent degree/diploma courses in Schools and Universities. This will also take care of research in the field of cooperation.
- World’s largest Cooperative Training Scheme: This aims at revamping strengthening existing cooperative training structure in the country and modernize the training methods through a revamped scheme.
- To provide facilities at par with FPOs to existing PACS.
- Establishing Multipurpose PACS/Dairy/Fisheries cooperatives in every panchayat.
- World’s largest food grain storage scheme for cooperatives.
- Revival and computerization of PCARDBs/SCARDBs.
- Establishment of National Cooperative Database.
- Amendment to Multi State Coop. Act 2002 and setting up of 3 new MSCS.

- New Cooperative Policy - Drafting of new Cooperative policy with a view to strengthen the cooperatives and make them vibrant with increased contribution to the economy.
- All these initiatives will create immense business potential from grassroots upward in times to come.

4. Recent developments/ latest initiatives by State Government in strengthening the outreach and activities of cooperatives

1. Maharashtra is recognised as one of the leading states in India in the field of cooperation. The cooperative credit structure in the State comprises the three-tier short term rural cooperative credit institutions (State Cooperative Bank District Central Cooperative Banks and Primary Agricultural Credit Societies) and the Primary Urban Cooperative Banks. The cooperative sector in Maharashtra comprises a total of 222214 cooperatives covering about 201155 Non-Credit Cooperative Societies (like Milk/Fishery/Poultry/ Housing/ Labour/ Consumer/ Weavers/ Marketing/ Industrial societies etc.) and 21059 rural credit co-operatives (PACS LAMPs FSS etc.). These primary societies have nearly 580 lakh members spread across 27568 gram panchayats. Further there are 666 MSCS having their registered office in the state. Besides there are about 123 district level federations 4 state level federations and 3 national level federations operating in the state. (Source: National Cooperative Database (NCD) of MoC GoI)
2. The details of credit & non-credit societies in the state are as under (activity and number) - AH Sector -Milk/Fishery/ Poultry 17598- Consumer Stores - 1957 Housing Societies-125815 Weavers-504 Marketing - 992 Labour Societies-11272 Industrial Societies-5287. Agro Processing and Sugar- 94 Others 55800 and PACS – 20952. (Source: CC & RCS Office Pune). Status of PACS in Maharashtra: Maharashtra has one third of the PACS in the country. Despite such large number the status of PACS is not encouraging in the state as can be seen below. Total PACS- 20952, Total Members-1.21 crore Average members / PACS – 572, Borrowing members – 41 Lakh (34) Average borrowing members/PACS - 194 PACS in profit-9177 Total imbalances between PACS & DCCBs-6005 Crore PACS as per Audit classification - A Class Audit : 2122 B Class Audit : 7657 C Class Audit : 9880 D Class Audit : 1177 No of PACS managed by a Secretary- 1 to 15 PACS Total Agricultural credit advanced through cooperatives in the state (2023-24)- Rs. 24647 crore Farmers covered by Co-operatives in Maharashtra – 52 (mostly SF/MF).
3. Recent developments/ latest initiatives by State Government in strengthening the outreach and activities of cooperatives In line with the vision of GoI the Government of Maharashtra (GoM) has taken the following steps to strengthen PACS in the state

(A) Measures to make Primary Co-operative Societies financially viable

1) Model bye-laws for primary agricultural co-operative credit societies: Model by-laws were made applicable for all the PACS in the state in tune with the GoI instructions. A total of 153 business opportunities including agriculture allied and off-farm/non-agricultural activities are included in the scope and objectives of the societies. By amending the Rule 35 of the Maharashtra Co-operative Societies Act 1961 the external borrowing limit of the societies was increased to 25 times (instead of 10 times) of their own funds.

2) Computerisation of PACS: Computerization of total 12000 PACS envisaged in the state in 3 years with identification of 12000 PACS from all the 36 districts of the state. Progress of computerization of PACS in the state: The computerisation has achieved the major milestone of completing more than 95 DCT work in September 2024. As on 31st August 2024 DCT is completed for 11335 PACS Premigration is completed for 7737 PACS and 2583 PACS are in go live stage. The hardware is delivered for 8000 sanctioned PACS in the state and for remaining 4000 PACS procurement is in process.

3) Registration of new PACS: Total number of Gram Panchayats in the State - 27900 Total number of registered PACS – 20952 Number of Gram Panchayats without PACS – 6950. Scope for registration of new PACS (in Revenue circles other than Pune): There is scope to register new PACS after closing 2820 PACS with imbalances above

60. A Committee has been constituted to determine the criteria for registration of new PACS.

4) Grain storage through PACS: There are a total of 3957 PACS in the state with godowns having storage capacity of 6.98 lakh. 25 PACS in 12 districts of the state have more than 2 acres of land.

5) Development Organization Common Service Center (CSC) - MoU between GoI - Ministry of Cooperation Ministry of Electronics and Information Technology NABARD and CSC e-Governance Services India Ltd. on dt.02/02/2023. More than 300 e-services provided by CSC would be routed through PACS. A total of 5706 PACS in the state are under the contract for CSC.

6) Farmer Producer Organization through PACS - Inclusion of PACS members in functioning of FPOs especially those covered under SMART project (1048 FPOs are working under SMART project).

7) LPG distribution and retail Petrol/Diesel Outlets through PACS Amendments to rules proposed so as to qualify PACS as LPG distributors which would provide business expansion opportunities and employment creation at PACS level. PACS have been advised to apply for Petrol/Diesel Distributorship)

8) Jan Aushadhi Center through PACS: Central Governments decision to start Jana Aushadhi Kendra through PACS with at least 5 Jana aushadhi Kendras under PACS in each district. Currently initial approval is sought by 181 PACS with 65 PACS securing the drug license. 40 PACS have started with the Jan Aushadhi Kendra.

9) Membership of new Multistate Cooperative Societies

- In the state 1252 societies have applied for membership of National Cooperative Export Society and 16 societies have received the membership.
- In the state 1049 societies have applied for membership of National Co-operative Organic Society and 10 societies have received the membership.
- In the state 5607 societies have applied for membership of Bhartiya Beej Sahakari Samiti and 775 societies have received the membership.

5.(B) Strengthening of Cooperative Banks

RBI's decision for strengthening Co-operative Banks

- Urban cooperative banks allowed to open new branches: Banks with (Financially Sound and Well Managed) FSWM status are allowed to open at least 10 of total branches or 5 branches without prior approval of RBI.
- Permission to provide door step banking services: RBIs permission is not required for this.
- Recognition of cooperative banks as members under CGTMSE (Credit Guarantee Fund Trust for Micro and Small Enterprises).
- Insurance coverage available for MSE loans including cooperative banks among lending institutions under CGTMSE.
- Aadhaar Enabled Payment System (AEPS): Reduced on-boarding license fee for co-operative banks. As a result of this banking facilities are available to maximum farmers/beneficiaries.

6. Support needed from GoM: The following support /assistance may be considered at the state policy formulation level;

Collateral Security – GoM may consider providing collateral security/ Guarantee Cover to enable PACS to borrow from higher tier for adopting diversified business activities. Margin Money requirement of 10 under AIF and 20 under Agriculture Marketing Infrastructure (AMI) can be provided by GoM to those PACS having potential to undertake PHM activities. Top-up subsidy under AMI: top-up subsidy to borrowers who are availing subsidy under AMI scheme. Availability of Land for potential: Land available to Panchayats can be given to PACS for establishment of PHM infrastructure. Scheme for clearing the long pending imbalances so that PACS become eligible for borrowing from higher tier. Eligibility of PACS under State Government schemes- State Government may make PACS eligible under various State Government Scheme like SMART POCRA procurement of grains seed distribution etc. Adoption of model Bye-laws of cooperative – Adoption and operationalization of Model Bye-Laws by PACS for making them Multipurpose & Multi-dimensional. In

collaboration with NABARD A Focused Programme may be piloted in the State to evolve Customized training modules for capacity building of PACS secretaries and Board. For C and D rated PACS exhaustive training programmes may be evolved.

7. NABARD's Interventions for PACS: NABARD provides policy financial as well as technical support to rural credit cooperatives as part of institutional development efforts. These efforts are directed towards business development manpower and skill development of PACS. NABARD under its mission to transform PACS as MSC is offering remunerative business opportunities to PACS beyond traditional and captive business.

Financial Assistance: NABARD provides concessional refinance to StCB and DCCBs at an interest rate of 3 subject to DCCB providing loans to PACS for farm gate infrastructure creation and diversification of business activities to PACS at not more than 4 interest. For eligible activities the project can be converged with AIF where 3 interest subvention is available to PACS bringing the cost of borrowing to 1. Total 224 PACS were sanctioned Rs. 62.42 Crore as on 31 March 2024 for diversifying their business activities which include agri marketing infrastructure rural godowns drones and custom hiring centres against which an amount of Rs 26.31 crore has been disbursed to 114 PACS as on 31 March 2024.

8. Capacity Building support from NABARD: NABARD provides financial assistance under Cooperative Development Fund (CDF) for capacity building exposure visit creation of infrastructure for PACS and other interventions for staff and management through Cooperative Training Institutions (CTIs). Also exposure visits to Good working PACS within the State & outside the state for studying the functions and implementing the learnings in the PACS are supported by NABARD. Some of the prominent training programs conducted by cooperative training institutes and supported by NABARD pertain to 'Developing PACS into Multi-purpose societies' for PACS functionaries 'Business development plans' for PACS secretaries and 'Business development profit planning & diversification KYC AML and internal checks & control' for bank officials.

9. Status of Cooperatives in the District

1. The cooperative sector in Ahilyanagar comprises a total of 6036 cooperatives covering 3482 Non-Credit Cooperative Societies (like Milk/Fishery/Poultry/Housing/ Labour/ Consumer/ Weavers/ Marketing/ Industrial societies etc.) and 1397 rural credit co-operatives (PACS LAMPs FSS etc.). These primary societies have around 520491 members spread across different villages. Besides there are six district level federations.

10. Potential for formation of cooperatives

1. Ahilyanagar district has a good number of co-operatives in the rural credit sector.
There is a fair potential for cooperative activity in the animal husbandry (Dairy/Fishery/Poultry), marketing of agriculture produce and agro-processing

sector in the district, as indicated in the relevant chapters. The distribution of co-operative societies is not uniform across the blocks in the district. The Ahilyanagar, Sangamner and Kopargaon blocks have good presence of co-operative societies in the rural credit and animal husbandry sector. There is potential for creation of cooperative societies in animal husbandry (Dairy/Fishery/Poultry), marketing of agriculture produce and agro-processing sectors in Shevgaon, Pathardi, Karjat, Jamkhed and Parner, blocks. This can have immense multiplier effect in giving a fillip to economic activities in these areas.

2. Also, as per the National Cooperative Database pertaining to the coverage of GPs by PACS, there are 0 uncovered GPs and 110 underserved GPs in the Ahilyanagar district. where new M-PACS or dairy/ fishery society can be promoted. There are 05 defunct/dormant PACS in Ahilyanagar, which can be revived or liquidated for formation of new PACS as per the Margdarshika launched by MoC, GoI.

Chapter 9						
NABARD's Projects and Interventions in the District						
Sr. No.	Broad Area	Name of the Project/ Activity	Project Area	Nature of support provided	CSR collaboration/ Convergence etc.	Likely impact/ Outcome
1	Banking Technology	Support to Mobile van for demonstration of Banking technology	Ahilyanagar	Grant assistance - one time for capital asset.	Support extended to DCCB.	Awareness generation regarding Banking technology.
2	Financial Inclusion	Financial and Digital Literacy Camps (FiDgi)	Ahilyanagar	Grant assistance of Rs.1648407/- disbursed for conduct of 350 FiDgi camps	Support extended to DCCB.	Awareness generation regarding Banking technology.
3	Infrastructure Development	CAPEX support to RSETIs/RUDSETI	Ahilyanagar	Capital expenditure grant support of Rs.4.50 lakh disbursed to RSETI for purchase of training equipments.	Support extended to R-SETI Ahilyanagar.	Quality training impartment for self-employment.
4	Banking Technology	Onboarding CKYCR	Ahilyanagar	Grant assistance of Rs.4.00 Lakh disbursed to DCCB.	Support extended to DCCB.	Banking technology adoption by DCCB.
5	Financial Inclusion	Setting up of Centre for financial literacy (CFL)	Ahilyanagar	Grant assistance of Rs.58.60 Lakh sanctioned to Central Bank of India for setting up of two CFL.	Support extended to Central Bank of India.	Financial inclusion

Sr. No.	Broad Area	Name of the Project/ Activity	Project Area	Nature of support provided	CSR collaboration/ Convergence etc.	Likely impact/ Outcome
6	Banking Technology	Deployment of 300 micro ATMs and reimbursement for ATM – add on cost.	Ahilyanagar	An amount of Rs. 85.42 lakh was disbursed to DCCB for deployment of 300 micro ATMs and as reimbursement for ATM – add on cost during the year 2021-22 and 2020-21.	Support extended to DCCB.	Banking technology adoption by DCCB.
7	Watershed Development	Watershed Development	Ahilyanagar, Akole, Jamkhed, and Parner blocks.	Eleven watershed projects are ongoing one in the district with TFO of Rs.1365.25 lakh in Ahilyanagar Akole Jamkhed Parner and Sangamner blocks.	Cummins foundation is the CSR partner in the WDF project at Panoli village Parner block.	Aspects related to availability of ground water climate change livelihood etc. and overall development of project area.
8	Climate Change	"JIVA"- project on natural farming.	Sangamner	Pilot project on natural farming – “JIVA” has been sanctioned to WOTR at Kumbharwadi Sangamner block Ahilyanagar with TFO of Rs.34.16 lakh.		JIVA programme intends to pioneer and scale up agro-ecology with a strategic and transformational approach leveraging the pre-existing social and natural capital in the completed or near completion watersheds.
9	Collectivisation	Promotion of FPOs	Pathardi, Karjat and Jamkhed	Under Central Sector Scheme for promotion of 10000 FPOs – Agriculture Development Trust (ADT) Baramati has been identified as CBBO and has registered three FPOs each in Karjat Karjat-Jamkhed cluster and Pathardi block.		FPOs promoted are functioning to achieve various objective of input and output aggregation processing and marketing.

Success Stories

Success Story 1: Watershed development a different approach for wholistic development

1. Scheme : Watershed development fund
2. Project Implementing Agency : Bosco Gramin Vikas Kendra
3. Duration of the project : 03 Years
4. Beneficiary :

No. of beneficiaries: 242
5. Community : Mathni and Balewadi Village
6. State : Maharashtra
7. District : Ahilyanagar
8. Block : Nagar
9. Village : Mathani - Balewadi

❖ Support provided

Soil and water conservation work, Climate proofing interventions, Livelihood support, Cost of capacity building and institutional strengthening etc.

❖ Pre-implementation status

- Before the watershed initiatives in the village, farmers could grow only regular crops like sorghum, bajra and a few other rain-fed varieties..
- These crops, while essential for subsistence, limited their ability to diversify and maximize the productivity of their land.
- Due to the lack of water conservation measures, farming was highly dependent on unpredictable rainfall, resulting in low yields and restricting crop cycles to a few months each year.
- Soil erosion and water scarcity further compounded the problem, making farming a challenging and less profitable endeavor.

❖ Challenges faced

- The lack of water for agriculture, inefficient open irrigation systems, and excessive use of chemical fertilizers present several significant challenges. Lack of awareness about the GI product among farmers and consumers.
- Water scarcity hampered crop growth and reduced productivity, while open irrigation caused substantial water wastage due to evaporation and poor distribution. Reaching out farmers spread in various geographies in the district.

- Additionally, the heavy reliance on chemical fertilizers not only raised production costs but also gradually depletes soil quality, diminishing its fertility.
- This dependency, combined with inadequate water management, exacerbates environmental degradation, contributing to soil erosion, pollution of water bodies and a loss of biodiversity.
- As a result, the farmers faced declining yields, escalating input costs and long-term damage to the environment, perpetuating a cycle of unsustainable agricultural practices.

❖ Impact

- After the implementation of watershed management programs, there was a significant improvement in water availability and soil quality.
- The construction of contour bunds and recharge pits played a crucial role in retaining rainwater, preventing runoff, and recharging groundwater levels. As a result, the availability of water for irrigation improved drastically, allowing him to diversify his crops.
- Instead of being limited to traditional, low-value crops, he was now able to cultivate a wider variety of high-value crops such as vegetables and fruits.
- One farmer Mr. Pandharinath Yashwanta Ghorpade harvested 17 quintals of vegetables and 12 quintals of mangoes, which significantly boosted his income. With the total earnings of ₹162,500, he experienced a level of financial stability that had previously been out of reach.
- The improved water availability and enhanced soil moisture also enabled him to practice multi-cropping, cultivating different crops throughout the year without relying solely on seasonal rains.
- This not only increased his overall production but also mitigated the risk of crop failure caused by erratic weather conditions, ensuring a more reliable and consistent income.
- The watershed initiative marked a turning point, empowering him to break free from traditional crop limitations and embrace more sustainable and profitable agricultural practices.
- It not only improved his livelihood but also contributed to the long-term health of the ecosystem in his village, setting a sustainable model for other farmers in the community to follow.

Appendix 1a

Climate Action & Sustainability

Climate Action - Scenario at Global & National Level

Climate Change and its Impact

Climate change is affecting every region on the Earth, in multiple ways. The IPCC AR6 highlights that human-induced climate change is intensifying weather and climate extremes, resulting in unprecedented heatwaves, heavy rainfall, and severe droughts. The frequency and intensity of these events are likely to increase, posing significant risks to ecosystems, biodiversity, and human societies.

India is exposed to a whole range of climate and weather-related hazards. India with diverse geographical regions, long coastline, biodiversity, and high dependence on natural resources is one of the most vulnerable countries to climate change risks worldwide. Further, more than half of India's population lives in rural areas and depends on agriculture & allied activities, which are highly sensitive to climate change, threatening the livelihoods of people dependent on them.

There is emerging evidence that the productivity of crops, livestock and fish is likely to be affected with implications to food security, livelihoods, and sustainability in agriculture. In India, several studies have projected declining crop yields, in the absence of adaptation to climate change. As per the district level risk and vulnerability assessment of Indian agriculture to climate change undertaken by ICAR-CRIDA, 109 districts out of 573 rural districts (19% of total districts) are 'very high-risk' districts, while 201 districts are high-risk districts.

Sixth Assessment Report (AR6) of the Intergovernmental Panel on Climate Change (IPCC), 2022

ICAR-CRIDA (2019): Risk and Vulnerability Assessment of Indian Agriculture to Climate Change.

Climate Finance and Challenges

Climate finance requirement of India is enormous. While the preliminary financial estimates for meeting India's climate change actions as per NDC was USD 2.5 trillion between 2015 and 2030, estimated financial requirement of India to become net-zero by 2070 as per IFC is US\$10.1 trillion. There are various estimates of financial requirements that vary greatly due to varying levels of detail, but it is important to note that they all point to a need for tens of trillions of US dollars. India's updated NDCs also indicates the need to better adapt to climate change by enhancing investments in development programmes in sectors vulnerable to climate change, however financial

requirements for adaptation are very large and will increase in the future. To fully meet our NDCs in a timely manner, India requires enhanced new and additional financial, technological and capacity building support. However, financial, and technological commitments by developed countries under the Paris Agreement are yet to be fully transpired.

Initiatives of Govt. of India

India initiated the National Action Plan on Climate Change (NAPCC) in 2008, which introduced eight National Missions encompassing various efforts. In August 2022, the Government of India displayed greater determination in its efforts to address climate change by submitting its revised Nationally Determined Contribution (NDC) to the UNFCCC. Through Mission LiFE (Lifestyle for the Environment), India advocated for a global shift in mindset and behaviour, moving away from thoughtless and harmful consumption towards purposeful and conscious utilisation.

Initiatives of RBI

Climate change is a rapidly emerging area of policy interest in the RBI. Back in 2007, the RBI advised banks to put in place Board-approved plans of action towards helping the cause of sustainable development. In 2015, the RBI included loans for generation of renewable energy and public utilities run on non-conventional energy as part of its priority sector lending (PSL) policy to incentivise the development of green energy sources.

RBI has also laid out guidance for voluntary initiatives by regulated entities (REs) on green finance, setting up of green branches and green data centres, encouraging greater use of electronic means of communication instead of paper, and renewable energy sources. In early 2023, the RBI issued sovereign green bonds to mobilize resources for the Government for green infrastructural investments. RBI has also released the framework for mobilizing green deposits by REs.

In February 2024, the RBI has issued draft guidelines on 'Disclosure framework on climate-related financial risks, 2024'. The framework mandates disclosure by REs on four key areas of governance, strategy, risk management and metric and targets, which is a step towards bringing the climate risk assessment, measurement and reporting requirements under mainstream compliance framework for financial sector entities in India.

Initiatives of NABARD

The whole spectrum of NABARD's functions and initiatives focus on the attainment of sustainable development. NABARD's initiatives in the Agriculture, Natural Resources, and Rural Development (ANR) sector have integral components of climate action – both mitigation and adaptation, for

vulnerable sectors and communities. NABARD has been playing a key role in channelizing climate finance to the nation as the Direct Access Entity (DAE) and the National Implementing Entity (NIE) for major climate funds such as the Green Climate Fund (GCF), Adaptation Fund (AF), and National Adaptation Fund for Climate Change (NAFCC). This role enables NABARD to access and deploy climate finance effectively, driving impactful initiatives that address the pressing challenges of climate change in the agricultural sector.

In a significant stride towards sustainable development, NABARD recently unveiled its Climate Strategy 2030. The strategy is structured around four key pillars: (i) Accelerating Green Lending across sectors, (ii) Playing a broader Market Making Role, (iii) Internal Green Transformation of NABARD, and (iv) Strategic Resource Mobilization. This strategic initiative not only reinforces NABARD's commitment to environmental stewardship but also positions it as a pivotal player in India's transition towards a resilient and sustainable economy.

Way Forward

India has significantly high climate finance needs. NABARD is dedicated to playing its part to expand climate financing in India through a range of financial and non-financial initiatives. Our goal is to promote adoption of innovative and new techniques, and paradigm shifts to build climate resilient agro-ecological livelihoods and sustainable agricultural systems, that are resilient to climate change. The fight against climate change necessitates cooperation, innovation, and a collective commitment to effect change. Currently, it is a crucial time for communities worldwide to expedite climate action before it becomes too late.

Appendix 1b

Climate Action & Sustainability

2 Climate Change Scenario – At the State Level

2.1 State Action Plan for Climate Change

A In 2008 the Government of India released the National Action Plan on Climate Change (NAPCC) and in August 2009 directed the States to develop State Action Plans on Climate Change guided by and consistent with the structure and strategies of the NAPCC. The Government of Maharashtra took a pioneering step towards formulating the MSAAPCC by commissioning a comprehensive vulnerability assessment study which included the task of generating model-based climate projections specific to the State's geography. The MSAAPCC provides a detailed framework for Maharashtra to adapt to climate change impacts through coordinated efforts sector-specific strategies and continuous improvement based on expert inputs and stakeholder feedback spanning eight key areas: agriculture water forests and biodiversity health rural development urban development energy and disaster management.

2.2 Any specific Climate Change initiative in the District by

Govt. of India: National Initiative on Climate Resilient Agriculture (NICRA): The Government of India launched NICRA in which focuses on enhancing the resilience of Indian agriculture to climate change. Maharashtra has benefited from this initiative through various interventions including Climate-Resilient Practices Farmer Capacity Building & Weather Forecasting Services.

ICAR Institutions: ICAR Institutions ICAR-Central Research Institute for Dryland Agriculture (CRIDA): CRIDA has implemented several projects in Maharashtra aimed at improving the resilience of dryland agriculture to climate variability such as Watershed Management Projects Agro-Advisory Services & Research on Drought- Resistant Crops.

State Government: The Maharashtra State Government has undertaken several projects and initiatives that align well with the key areas outlined in the MSAAPCC as listed below : Project on Climate Resilient Agriculture (PoCRA) Jalyukt Shivar Abhiyan Integrated Watershed Management Programme(IWMP) Godavari River Basin Management Plan National Health Mission (NHM): Public Health Awareness Campaigns Green Maharashtra Mission Employment Guarantee Scheme (EGS) Mahaforest Initiative Maharashtra Solar Energy Policy Smart Cities Mission Maharashtra Disaster Management Plan Capacity Building and Research etc.

NABARD: NABARD interventions as the National Implementing Entity for National Adaptation Fund for Climate Change & Green Climate Fund

a. Under Climate Smart Agriculture Village Programme 70 farmers of Muradgaon Belsare Village (Deoli, Wardha) were trained on climate change resilient practices & implemented the BBF method for sowing of Soybean (JS9305) b. Efficient Water Management and Agriculture Technology Adoption for Climate Adaptive and

Resilient Farming System in 51 Villages of Nandurbar (37) & Buldhana (14) under NAFCC

c. Restoration of biodiversity in 250 ha of degraded ecosystem through water resource development forest regeneration and livelihood support to 8 villages in buffer zone of the Pench Tiger reserve Nagpur under NAFCC d. Farm sector projects by NABARD in Maharashtra: Project activities (no.of projects & districts)- Watershed(51,16); Climate Proofing of watersheds (64,11); Climate Proofing of watersheds with KfW(13 ,6); Springshed Devt(17,7), JIVA (3, 3); Tribal Devt(58, 19).

Other Agencies: National Initiative on Climate Resilient Agriculture (NICRA): The Government of India launched NICRA in which focuses on enhancing the resilience of Indian agriculture to climate change. Maharashtra has benefited from this initiative through various interventions including Climate-Resilient Practices Farmer Capacity Building & Weather Forecasting Services.

Appendix 1c

Climate Action & Sustainability

3 Climate Change Scenario - At the District Level

3.1 Prospects of Climate Action in the District

- a Mainstreaming climate change into development policies entails Integrating future climate change projections & uncertainties into state disaster management plans & disaster risk reduction strategies, and incorporating climate change concerns into development plans & land use planning. 'Maharashtra climate change project: Final report' (GoM – TERI 2014), the Sector-specific adaptation recommendations in the vulnerable regions for the district include –
 - a Agriculture - Enhancing resilience of farming systems through diversified cropping patterns, soil conservation, and value addition, Securing food supply chains.
 - b Water resources - Origins and catchment areas of river basins : Conservation and renaturalisation of rivers and water bodies, groundwater recharge & Improvement of water use efficiency.
 - c Ecosystem - Northern Western Ghats : Enhancing quality of forest cover, Diversification livelihood options.

3.2 Any specific Climate Change initiative in the District by

- a KVK Babhleshwar, Rahta block and KVK, Dahigaon, Shegaon block are the two KVKs in Ahilyanagar district. Promotion of climate resilient package of practices such as Sustainable sugarcane initiative, promotion of bio-enzymes, etc. are promoted by them in their area of jurisdiction.
- b The Government of Maharashtra took a pioneering step towards formulating the MSAAPCC by commissioning a comprehensive vulnerability assessment study which included the task of generating model-based climate projections specific to the State's geography. The Maharashtra State Government has undertaken several projects and initiatives that align well with the key areas outlined in the MSAAPCC as listed below : Project on Climate Resilient Agriculture (PoCRA), Jalyukt Shivar Abhiyan, Integrated Watershed Management Programme(IWMP), Godavari River Basin Management Plan, National Health Mission (NHM): Public Health Awareness Campaigns, Green Maharashtra Mission, Employment Guarantee Scheme (EGS), Mahaforest Initiative, Maharashtra Solar Energy Policy, Smart Cities Mission, Maharashtra Disaster Management Plan, Capacity Building and Research etc..
- c Various farm sector Projects supported by NABARD in the district are : Watershed Projects, Climate Proofing of watersheds, JIVA Project in Kumbharwadi village, Ssangamner block .

Appendix 2

Potential for Geographical Indication (GI) in the district

- 1 Geographical Indication (GI) is an Intellectual Property Right (IPR) that identifies goods originating from a specific geographical location and having distinct nature quality and characteristics linked to that location. GIs can play an important role in rural development empowering communities acting as product differentiators support brand building create local employment reduce rural migration creating a regional brand generating spin-off effects in tourism and gastronomy preserving traditional knowledge and traditional cultural expressions and conserving biodiversity.
- 2 NABARD's intervention in Geographical Indications envisages end-to-end support in facilitating pre-registration as well as post-registration activities for Geographical Indications to appreciate quality improve market access create awareness strengthen producer's capacity to enforce their rights subsidize cost of registration enforcement and marketing.
- 3 Pre- GI study of Kalbhar rice from the district is under process. Potential product for Geographical Indication registration in the district are Guava from Rahta block and kagdi lemon from Shrigonda and adjoining blocks.

NABFOUNDATION

Leveraging the power of convergence

NABFOUNDATION is a wholly owned, not for profit, subsidiary of NABARD, established under Sec 8 of Companies Act, 2013. The organization draws its strength and experience from the thousands of development projects grounded by its parent body, NABARD, in multiple domains over nearly last four decades.

WHAT DOES NABFOUNDATION WANT FROM YOU?

IF YOU ARE AN INDIVIDUAL

Reach out to us with your ideas about development projects which you believe need to be implemented. We really look forward to your fresh ideas.

IF YOU ARE A CSR UNIT

Of a corporate and believe that there is a scope for collaborating with us to have access to the vast network of resources of NABARD in a structured manner, just give us a call.

IF YOU ARE A CIVIL SOCIETY ORGANIZATION/NGO

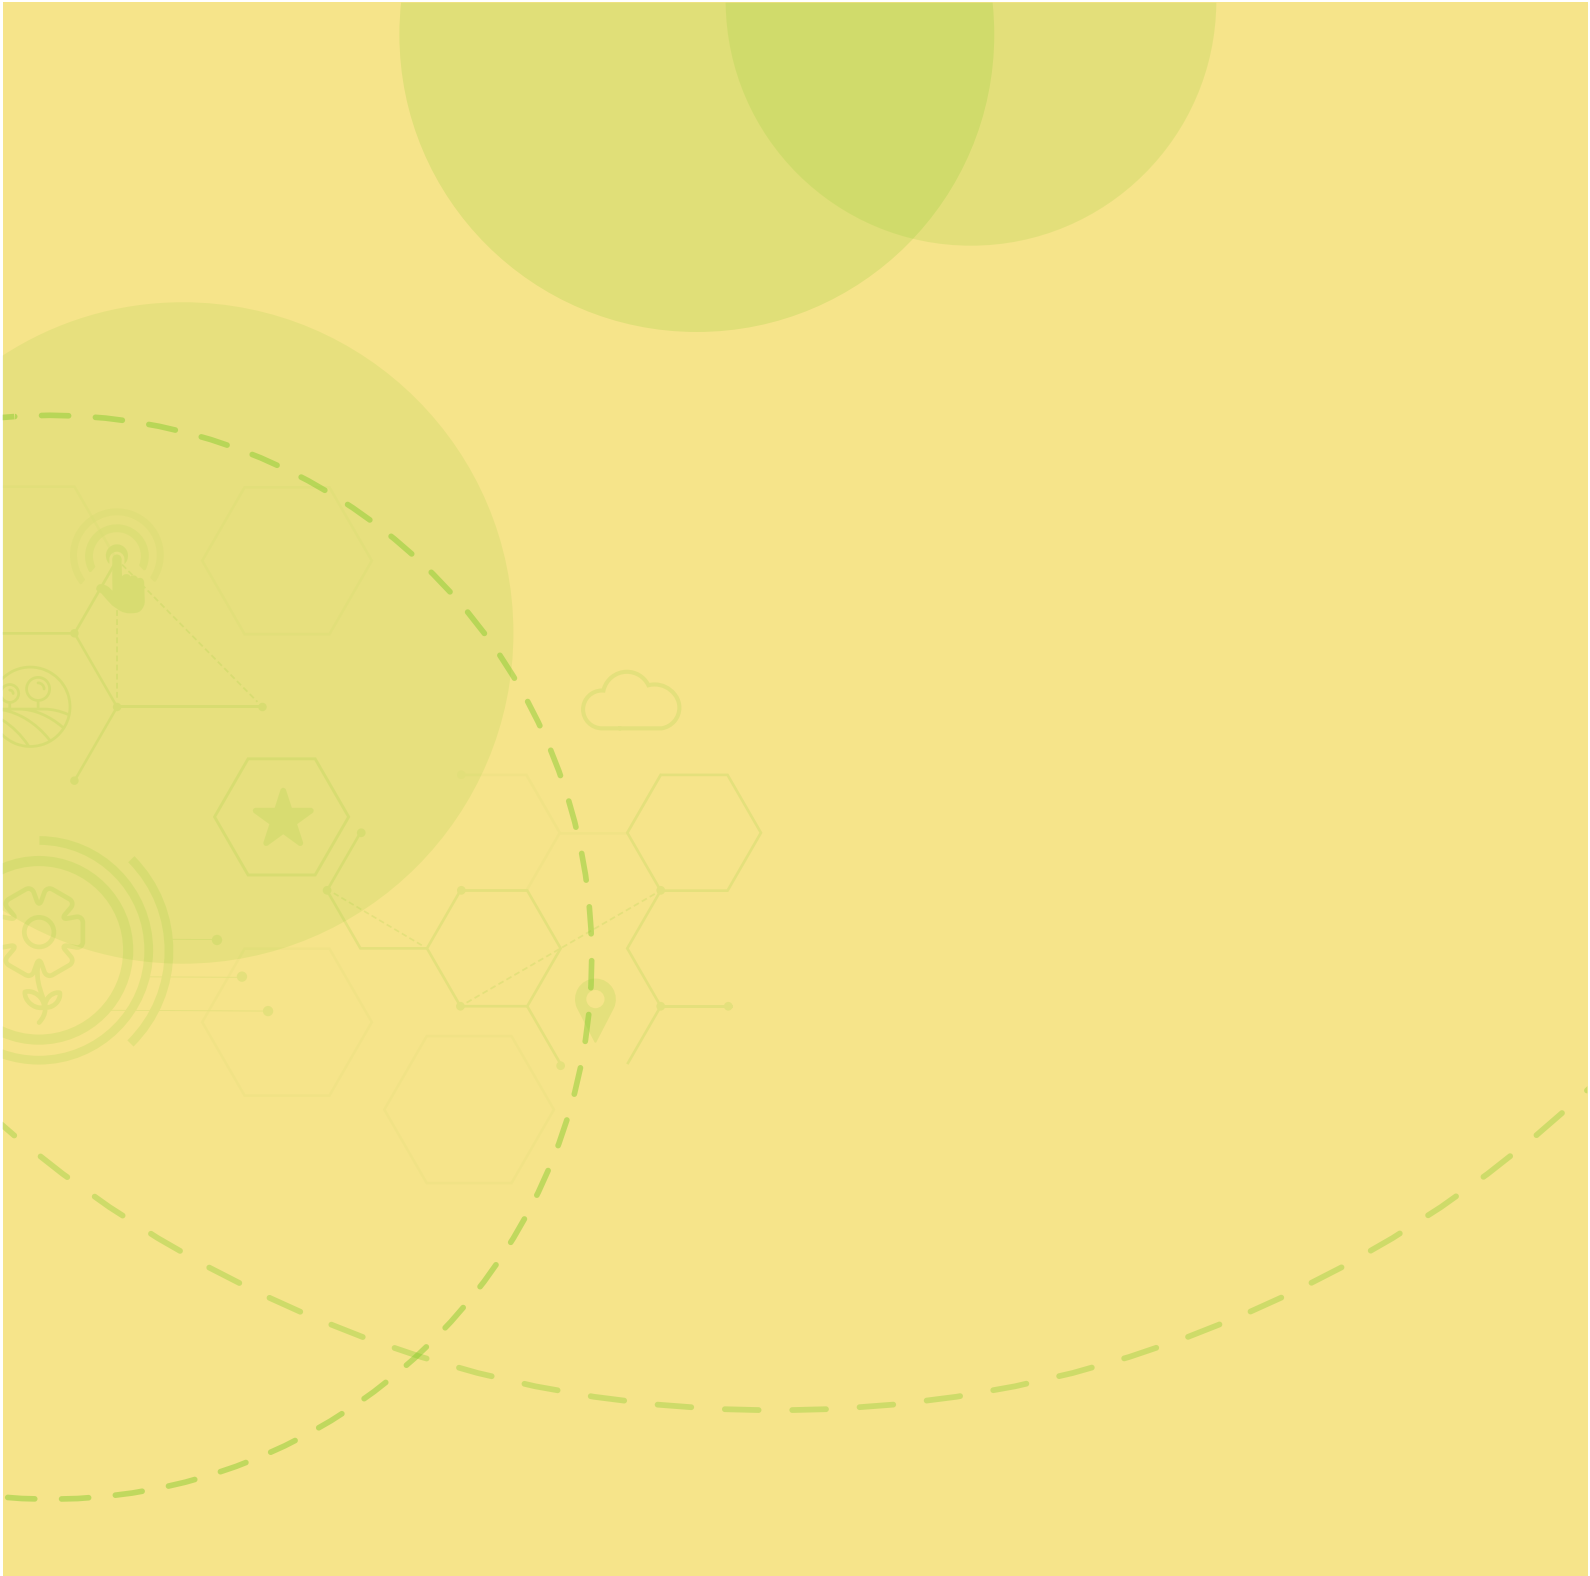

With an idea whose time you think has come and have not been able to find willing partners, reach out to us.

IF YOU ARE WITH THE GOVERNMENT

And believe that there is a need for reimagining implementation of your Central or State government projects, allow us to be a part of your vision.
